Site Description: The property is currently vacant and Undeveloped. It is heavily forested with hardwoods and evergreen trees.

Site History: The property was originally part of the Park Village development. This particular area was designated for single family homes. The County purchased the property in 2009.

CRITERIA TO BE APPLIED – LAND USE PETITION (REZONING)

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties;**
- 2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;**
- 3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;**
- 4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools;**
- 5. Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan and Future Development Map;**
- 6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.**
- 7. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources.**
- 8. Whether the aesthetic and architectural design of the site is compatible with the intent and requirements of the Comprehensive Plan, the Character Areas, and any Overlay Districts.**

CRITERIA TO BE APPLIED – CONDITIONAL USE PERMIT

- a. Whether the proposed use is consistent with the comprehensive plan and other adopted policies of the City;
- b. Whether the proposed use complies with the requirements of this zoning ordinance;
- c. Whether public services, public facilities and utilities are adequate to serve the proposed use;
- d. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of:
 - 1. Noise, smoke, odor, dust or vibration generated by the proposed use;
 - 2. Hours or manner of operation of the proposed use; and
 - 3. Traffic volumes generated by the proposed use;
- e. Whether the proposed use would result in an over-concentration of the subject use type within the area of the proposed use;
- f. Whether the aesthetic and architectural design of the site is compatible with the intent and requirements of the comprehensive plan, the character areas, and all applicable zoning ordinance regulations; and
- g. Whether the proposed use is compatible with adjacent properties and land uses, based on consideration of the size, scale and massing of proposed buildings and the overall site design.

PUBLIC SCHOOL POLICY STATEMENT

The Mayor and Council of the City of Canton hereby recognize that growth and development can, at times, have an effect on school capacity within the county and therefore recognize the need to share information on developments that have regional impact. In an effort to cooperate with the Cherokee County School Board and share information on residential rezoning requests, master plan applications, and land use modifications to the comprehensive land use plan, the Mayor and Council hereby encourage open dialogue and meeting between the applicant and the appropriate school board representative. Therefore, developers whose projects consist of 25 or more residential units shall contact the Cherokee County School Board and communicate with a school board representative to discuss their intent. This communication between the applicant and the school board shall take place, at a minimum, prior to the Planning Commission meeting in which the application is scheduled to be heard. The applicant should be prepared to address such communication if requested by the Mayor and Council at the meeting in which final action is to be taken. (Section 8-8-B-37) (Amended: 12/07/00)

Canton Planning Commission Review Criteria

(Applications Type A – J : ONLY)

How will this proposal be compatible with surrounding properties? The proposed site is adjacent to current corporate growth,
has adequate natural buffers in addition to the city buffer/setback requirements. The proposed development will be compatible with surrounding property.

How will this proposal affect the use and value of surrounding properties? _____

We have found with other parks that we developed that the surrounding prop. values go up.

Can the property be developed for a reasonable economic use as currently zoned? Please explain why or why not.

The property can be developed for residential purposes as currently zoned. However, we propose to develop corporate buildings that will create jobs,
add to the tax base, and not put any additional burden on the schools.

What would be the increase to population and traffic if the proposal were approved? We do our best to recruit companies

that match the needs of our residents. An good example for truck traffic is Cherokee 75 which when considering all businesses avg. is 6.5 trucks/day.

What would be the impact to schools and utilities if the proposal were approved? Increased tax base for schools and

increased revenues for utilities.

How is the proposal consistent with the Comprehensive Land Use Plan, particularly the Future Land Use Map?

There is currently corporate growth to the west and a proposed mixed-use development to the north with light industrial, corporate, retail, and office growth; the
future land use map notes the employment center designation to the west and south of the site.

Are there existing or changing conditions which affect the development of the property and support the proposed

request? There are limited areas for corporate/office/light industrial growth within the City of Canton

* Please provide a Letter of Intent, which provides the necessary information to support your application.

Dear Steve,

RE: Letter of Intent - Application of the Development Authority of Cherokee County & Cherokee County seeking a zoning condition amendment on 39.98 +/- acres near Bluffs Court

The Development Authority of Cherokee County (DACC) seeks a zoning condition amendment of 39.98 +/- acres (shown as tract 3 on the attached site plan) east of Bluffs Court and South of the proposed Heard Road Extension/Technology Ridge Parkway. Cherokee County currently owns the Property and the Development Authority seeks to request a zoning condition amendment to better market the property. Appropriate entitlement will allow the Authority to locate more office operations, advanced manufacturers, and/or headquarters operations within Cherokee County and the City of Canton. The site lies less than three miles off Interstate 575 and will give the Development Authority and the City of Canton more marketable product to target industries for further corporate expansion along this corridor.

From our research, the site has served primarily as raw land for the last 30+ years as seen on the historical aerial. The site has a proposed mixed use, corporate, and light industrial development to the north, office/light industrial development to the west, and good buffers for the adjacent residential property to the south and east. Although the site can be developed as it is currently zoned for residential purposes, Bluffs 2 will provide a location for corporations to create jobs and add to the tax base. We have attached a building example of global panoramic sunroof automotive supplier, Inalfa Roof Systems' facility in Cherokee 75 Corporate Park as well as Watt Neal's smaller flex-space buildings in The Bluffs. We anticipate the buildings at the Bluffs 2 site could be of similar construction. We expect to see similar traffic generation to Cherokee 75 Corporate Park, which generates an average of 6.5 trucks per day. There are two potential proposed access points to the north and/or west.

Cherokee By Choice.

CHEROKEE | ECONOMIC
OFFICE OF | DEVELOPMENT

Although conceptual at this point, the plan notes a maximum density of 13,000 sf per acre. The finished product will be market-driven and project specific. We propose a height restriction equal to the 80' (6 stories) requirement under the Light Industrial classification within the zoning ordinance. In addition, the DACC will also adhere to minimum area requirements and regulations as noted in the Canton Zoning Ordinance.

Attached to this Letter of Intent you will find the Application for Public Hearing, reference materials, and the following:

1. A copy of the Site Plan (no buildings shown; final design project specific/market driven)
2. Boundary Survey
3. Copy of the deeds reflecting the record title holders
4. Current legal description

Thank you and please do not hesitate to contact me should you need any additional information.

Sincerely,

Marshall L. Day, Chairman
