**Agenda Item Title:**

Appeal of Board of Appeals denial for requested variances - VAR2405-001, request to reduce required buffer from 50' to 10', VAR2405-002, request to reduce required building setback along external property lines from 50' to 10', VAR2405-003, request to place sidewalk along one side of streets, VAR2405-004, request to reduce beauty strip from 2' to 1', VAR2405-005, request to eliminate required gates on a private street - 201 Hospital Road

**Summary:**

The Board of Appeals (BOA) met on June 10, 2024 and heard a series of appeals filed by Eastwood Homes of Georgia, LLC. The applicant seeks to build 49 townhomes on the property formerly used as the parking area for the old Northside Hospital. The applicant is requesting to reduce the required buffer from 50' to 10', reduce the required setback along the external property lines from 50' to 10', place sidewalks along one side of the street only, reduce the beauty strip from 2' to 1' and eliminate the required gates on a private street. The applicant is only appealing two of the denials, the 50' buffer reduction and the 50' building setback requirement. The BOA denied all five requested variances. The Unified Development Code requires the applicant to first petition the Mayor and City Council to hear an appeal of the denials. If the Mayor and City Council decides to hear the appeal a public hearing will be scheduled. If the Mayor and City Council decides not to hear the appeal the applicant then has the ability to take their appeal to the Superior Court of Cherokee County.

**Budget Implications:**

Action letter

## Variance Appeal Letter

To whom it may concern,

Eastwood Homes is pursuing the purchase of a 4.5+/- acre parcel of land that was once a part of the old Northside Hospital. As you may be aware, an apartment developer recently rezoned and purchased the site which is currently in development. The apartment developer is currently in the process of splitting off the northern portion of the site to potentially sell to Eastwood Homes who plans to build townhouses. The apartments and townhouses will be two separate developments.

After (3) predevelopment meetings, other consultations with staff, and various site plan drafts, Eastwood created a site plan based on staff's comments, recommendations, and preferences which is attached. The site plan utilizes all (5) of the submitted variance applications, which were all discussed in the last predevelopment meeting. The variances include the following:

1. Reduce the landscape buffer from 50' to 10'
2. Reduce the setback buffer from 50' to 20'
3. Remove the requirement for sidewalks on both sides of internal streets.
4. Reduce the landscape strip from 2' to 1' to maintain a 5' sidewalk throughout the site. (recommended by staff)
5. Remove the requirement for private roads to be gated.

The variance applications were filed at the beginning of May and the public hearing was June 10<sup>th</sup>. Representatives from Eastwood and the property owner attended in support. Eastwood's engineer was also in attendance to answer any specific technical questions per the request of the Board Members, but during the hearing the board who obviously had several questions did not invite the engineer to the stand to explain the technicals.

Eastwood also consulted with the Landscape Architect you designed the landscape plan for the apartments to determine options for landscaping, and assessed the a 10' built landscape buffer can achieve similar screening effect as the minimum requirements for the 50' buffer in order to achieve the same intent as outline in the code while providing more engineering and landscape flexibility. For example: a landscape buffer can only have landscaping and no infrastructure, where as a setback buffer provides the flexibility to have both landscaping and infrastructure. This provides more site flexibility to interchange infrastructure and landscaping where applicable on the site. Other examples of impact include staff preferred driveway lengths as there in no minimum requirement for the property's current zoning, integration of the proposed development into the existing neighborhood for which all the existing homes front public roads with average setbacks of 10-20'.

There are certainly a variety of reasons we requested variances 3, 4, and 5. However, the applicant has decided not to pursue an appeal on those items, and only wishes to appeal variances 1 and 2 (landscape buffer and setback buffer). If the requested landscape and setback buffers will not be applied for the entire townhouse site per the site plan, the applicant wishes to discuss what options may be available for compromise on any reduction or to specific areas of the site. The applicant believes that the proposed variances will allow for superior site that integrates the new development into the existing community both aesthetically and functionally, etc.

Sincerely,

Nick Whitson, Land Acquisitions Manager

## Disclosure Form

O.C.G.A. § 36-67A-2 / O.C.G.A. § 36-67A-3 requires disclosure of campaign contributions to government officials by an applicant or opponent of a public hearing petition. Applicants must file this form with the Department of Community Development.

1. Name of Applicant/Opponent: Nick Whitson for New Canton School Homes of Georgia, LLC

### Section 1

If the answer to any of the following questions is "Yes," complete Section 2.

- A) Are you, or anyone else with a property interest in the subject property, a member of the City of Canton Planning Commission or the City of Canton Mayor and Council?  
 YES  NO
- B) Does an official of such public bodies have any financial interest in any business entity which has a property interest in the subject property?  
 YES  NO
- C) Does a member of the family of such officials have an interest in the subject property as described in (A) and (B)?  
 YES  NO
- D) Within Two (2) years of immediately preceding this application have you made campaign contributions(s) or given gifts to such public officials aggregating \$250 or more?  
 YES  NO

### Section 2

1. Name and the official position of the Canton Official to whom the campaign contribution was made (Please use a separate form for each official to whom a contribution has been made in the past (2) years):

N/A

2. List the dollar amount/value and description of each campaign contribution made over the past two (2) years by the Applicant/Opponent to the named Canton Official:

	Description
\$ <input style="width: 100%;" type="text"/>	_____
\$ <input style="width: 100%;" type="text"/>	_____
\$ <input style="width: 100%;" type="text"/>	_____

Note: Complete a separate form for each authorized applicant.

PUBLIC SCHOOL POLICY STATEMENT

The Mayor and Council of the City of Canton hereby recognize that growth and development can, at times, have an effect on school capacity within the county and therefore recognize the need to share information on developments that have regional impact. In an effort to cooperate with the Cherokee County School Board and share information on residential rezoning requests, master plan applications, and land use modifications to the comprehensive land use plan, the Mayor and Council hereby encourage open dialogue and meeting between the applicant and the appropriate school board representative. Therefore, developers whose projects consist of 25 or more residential units shall contact the Cherokee County School Board and communicate with a school board representative to discuss their intent. The applicant should be prepared to address such communication if requested by the Mayor and Council at the meeting in which final action is to be taken. (Section 8-8-B-37) (Amended: 12/07/00)

## Canton Board of Appeals Review Criteria

*Article II, Section 8-8-II-195 empowers the Board of Appeals to authorize variances from provisions of the Zoning Code pursuant to a finding based in the criteria listed below. Please respond to the following.*

(Applications Type K : ONLY)

Are there any extraordinary and exceptional conditions pertaining to the subject property because of its size, shape or topography? The shape of the property along with multiple road

frontages, and code standards create a lack of design and engineering flexibility.

Would the application of the Zoning Code standards as they relate to the subject property create an unnecessary hardship? Yes, limit design flexibility whereas the underlying intent of the code can be achieved with

the approval of the requested variances.

Has the condition from which relief or variance is sought been a result from action by the applicant? No

Are there conditions peculiar to the subject property? Yes

Would relief, if granted, cause substantial detriment to the public good or impair the purpose and intent of the Zoning Code? Specifically, would the variance impair an adequate supply of light and air to adjacent property or unreasonably increase the congestion in public streets or increase the danger of fire or imperil the public safety or unreasonably diminish or impair established property values within the surrounding areas, or in any other respect impair the health, safety, comfort, morals or general welfare or the inhabitants or the City? NO

Provide a Letter of Intent, which provides the necessary information to support your application for Variance.

## **TABLE OF CONTENTS & MATERIALS**

LETTER OF INTENT.....	pg.3-4
LIST OF REQUESTED VARIANCES.....	pg.5-9

## INTRODUCTION

Applicant, Eastwood Homes of Georgia, LLC, files this Letter of Intent in support of the Variance Application for the, "Townhome Tract," which is a 4.378 acre tract of the total 17.85 acre Mixed-Use Planned Development known as, "Accent Canton," which was the former location of the Northside Hospital-Cherokee near Riverstone Parkway and Waleska Road. PIN: 14-0168-0118.

The surrounding area includes a mixture of multifamily and single family residential, office, parks, and nearby commercial along Riverstone Pkwy. The redevelopment of this site will enhance the area by providing greater pedestrian connectivity and a vibrant place for people to live near the Etowah River, surrounding parks, and intown Canton.

Since 1962, the property was generally used for a hospital and associated medical uses, first as R.T Jones Regional Hospital and later Northside Hospital-Cherokee. In light of the growing population and need for additional space, Northside constructed a new state of the art facility. The existing buildings were demolished and the site has been vacant with a significant area of paving and no beneficial use.

The site was recently rezoned from SU (Special Use) to PD-MU (Planned Development - Mixed Use) and acquired by Accent Canton Atlanta LP. The site was approved for the development of 260 apartments and 50 townhomes. A Traffic Analysis was conducted at the time of the rezoning, and we don't foresee any negative or significant impact on traffic due to our variance request(s). The, "Townhome Tract," does lack some design and engineering flexibility due to its shape paired with certain nuances of the development code's minimum requirements, which include but are not limited to: buffers, setbacks, and other development regulations. Thus, the application seeks the following variance requests in order to balance design and engineering flexibility for sustainable and practical development with comfort, safety, and our interpretation of the underlying intention of codes

for which are seeking variances.

The City of Canton's Housing Needs Assessment identified the need for quality housing in the City and identified this former Northside Hospital site as a desirable residential development site. The variance(s) proposed for the Townhouse Tract will balance practical development and design flexibility with safety and comfort guidelines aligning with the city's guidelines for sustainable and practical development, as outlined in the Unified Development Code.

## LIST OF REQUESTED VARIANCES & DETAILS

### 1. Landscape Variance:

- **Request:** Landscape Variance - Section 103.03.07-10 - Remove the requirement for a 50' Landscape Buffer between the PD-MU and O-I Zoned properties at the northern borders of the Townhome development, which all share the same Future Land Use (FLU) Traditional Neighborhood Redevelopment Area (TNRA) in exchange for a 10' Built Landscape Buffer as depicted in the proposed site plan.
- **Justification:** A dense landscape plan within a 10-foot *built* buffer can achieve a similar effect and aesthetics as a 50-foot vegetative buffer, albeit with some considerations. Starting with the foundation of a *built* buffer, fencing. A privacy fence achieves multiple objectives from the code 103.03.07, "to reduce the effects of headlight glare, noise, and other objectionable activities," will create a complete visual barrier between the parking lot of 321 Hospital Drive and the proposed residential development which is now only separate by an old chain link fence, and also on the opposite side of the development between 50 Medical Ln and the development where there is currently no fencing or visual barrier. A privacy fence maximizes visual screening at eye level while maintaining little impact in a buffer in order to preserve room for layers of dense vegetative landscaping. The next few layers of our proposed *built* buffer will further create an appealing and dense landscape buffer between the two properties within the proposed 10 foot *built* landscape buffer. These additional layers to our *built* buffer involve a mixture of carefully chosen understory evergreen and oriental shrubs and trees that provide both vertical and horizontal coverage with <15 foot to 30 foot on center spacing. Followed by the third layer, a variety of evergreen and streetscaping canopy trees on the standard 50 foot center on center. The closer spacing of the plants behind the fence within the proposed 10-foot *built* buffer will create a more lush appearance. The combination of all these elements of our *built* buffer will create a dense layered year-round aesthetically pleasing barrier between the proposed residential development and office/commercial parcels to the north of the site. This concept of a 10' built landscape buffer was inspired with the assistance of an Engineer and Landscape Architect based on sections of the Canton code and approved tree species.

In addition to the proposed 10' built landscape buffer along the north and eastern property lines as shown in on our proposed site plan, we can also use the setback areas and open space in our proposed site plan for additional landscaping and tree planting as units 16-21 and 22-29 are roughly 40+ feet away from the property line. And units 30-39 are even further off the eastern property line, offering additional greenspace on the eastern side of the internal road as seen in our site plan which will feel very much like the underlying intention of a standard buffer on a significant portion of the site. *For images of existing and proposed conditions, see the colored site plan, elevations, and examples of proposed buffers.*

Other areas that will feel different with a smaller landscape buffer than originally planned, but possibly more aesthetically cohesive with the community, will be units 1-15 along the west side of the site as those units will front Hospital Rd. This will feel similar to units 22-29 fronting the Mary Lane extension that have a 10 foot setback. We made this adjustment after our first pre-development meeting to create a more inviting thoroughfare along Hospital Road as per recommendations during that meeting from Billy Peppers when discussing pedestrian accessibility to the broader community. We intend for units 1-15 to be closer to the street and have standard streetscaping, which we believe will promote greater pedestrian use and connectivity with the broader community. The zoning across the street from these western facing units is O-RT (office/residential transition) and is currently a combination of residential all fronting public roads, one medical office located at 260 Hospital Rd, and a pocket park at the southwest corner of Mary Lane and Hospital Rd. So, the concept of units 1-15 fronting Hospital Rd with a closer set back to the street should feel cohesive with the surrounding properties and their uses.

In summary, our proposal for a reduction of the 50 foot landscape buffer to a 10 foot *built* landscape buffer will include a combination of a privacy fence and a variety of vegetation to maximize screening and the underlying intentions of the city's Landscape Buffer ordinance while maintaining flexibility for site planning and engineering between the existing properties and the proposed residential site. And not to forget, while the buffer will technically be reduced, this proposed variance will allow greater design flexibility to give us the opportunity to create additional greenspace and

planting as desired along the immediately adjacent properties where landscaping will have the most impact aesthetically and as a buffer.

2. Setback Variance:

- **Request:** Setback Variance - This is a Variance for Zoning Condition #5 of Case Z2106-003 - "Building setbacks shall be 50' from external property lines unless a variance is granted by the Board of Appeals." Request variance to reduce 50' setback to 20'.
- **Justification:** This variance request goes hand in hand with the landscape buffer variance request. The setback variance aims to enhance engineering and site planning flexibility while maintaining a fair distance from the property boundary. It allows for a more adaptable design, accommodating stormwater management systems, transportation networks, landscape design, and pedestrian-friendly spaces which is crucial for the viability of the proposed development and necessary engineering design. As noted in the previous landscape buffer variance request, the reduced setback will work hand in hand with this proposed setback variance to facilitate a more engaging streetscape and functional access to the broader community for units 1-15 fronting Hospital Rd, while still accommodating the landscaping/streetscaping requirement. A majority of the units are roughly 40+ feet away from the property lines; except for those fronting the Mary Ln extension which show a 10' setback per Zoning Conditions, and units 1-15 which are shown in our proposed site plan to front Hospital Dr, showing a 20' setback. The colored site plan and other images attached with this application illustrate how the proposed setback variance from 50 feet to 20 feet can offer engineering adaptability across the site without compromising the natural buffer zone, maintaining a fair distance from the property boundary and the thoroughfare, which is in harmony with the underlying intentions outlined in the code for creating a safe, engaging, and aesthetically pleasing environment.

3. Development Regulation Variance:

- **Request:** Section 109.03.11 - Remove the requirement for sidewalks on both sides of internal streets, to one side of internal streets as depicted in the proposed site plan.
- **Justification:** In seeking a variance from the standard sidewalk requirements as stipulated in the City of Canton's development code, it is proposed that the construction of sidewalks on both sides of the street

within the interior of the development be deemed non-essential. This proposal is grounded in the design principle that prioritizes pedestrian connectivity and accessibility. The architectural layout ensures that all front entrances are integrated into a comprehensive network of sidewalks, facilitating unobstructed pedestrian movement throughout the community internally and externally. Furthermore, for the interior rear entry units numbered 22-29 and 30-49, the presence of rear sidewalks adjacent to garages is considered redundant due to the existing accessible routes from the front entrances to the entire community and other sidewalks throughout the community. This approach aligns with the city's vision of fostering communities that are walkable and interconnected, while also addressing practical considerations of site planning and engineering. See both the colored and variance site plans for reference.

#### 4. Landscape Variance:

- **Request:** Reduce beauty strip width from 2 feet to 1 foot.
- **Justification:** The proposed modification to the landscape variance seeks to adjust the width of the beauty strip from two feet to one foot. This change is carefully considered to uphold the integrity of the City of Canton's development code, specifically maintaining the required five-foot sidewalk width. Concurrently, it ensures that driveway lengths are sufficient to prevent obstruction of pedestrian pathways. The adjustment also offers increased flexibility in site planning, which can be particularly beneficial in constrained urban environments. Importantly, the revision is designed to preserve the original purpose of the beauty strip, which is to enhance the aesthetic appeal and ensure the safety of the streetscape. This careful balance between form and function reflects a commitment to the community's standards and the well-being of its residents. See the variance site plan for reference.

#### 5. Development Regulation Variance:

- **Request:** Section 109.03.09 - Remove the requirement for gates at the entrances of private roads.
- **Justification:** Fire/Emergency Safety, Traffic, Engineering and Site Planning. There was no option for public or private roads for the internal streets of the proposed Townhome Tract based on the Zoning Conditions. By default the code imposes a gate requirement on private roads. A gate

will be characteristically different from the surrounding residential properties with the exception of the apartment complex on the south side of the Mary Ln extension that is currently in development. The following are a number of considerations for removing the gate requirement on this site. Removing gates ensures unimpeded access for fire trucks, ambulances, and other emergency vehicles. Swift response during emergencies is critical for public safety. Without gates, emergency responders can enter the private road without delay, potentially saving lives and minimizing property damage. During evacuations (e.g., natural disasters), open roads facilitate swift departure for all residents. Gates can cause traffic congestion, especially during peak hours. Removing them improves traffic flow and reduces bottlenecks. Unrestricted access simplifies movement for residents, visitors, and delivery vehicles, enhancing overall convenience. Gates require ongoing maintenance, their removal reduces long-term costs on the homeowners/HOA and ensures smoother road operation. Gates can also hinder pedestrian movement. Removing them promotes walkability and inclusivity.

In summary, removing the gate requirement on the Townhome Tract allows for greater efficiency of traffic flows and emergency vehicles on the Mary Ln extension and Medical Rd, increased pedestrian accessibility, lower HOA payments for gate maintenance. It fosters a well-integrated community while ensuring emergency readiness.

**LIMITED WARRANTY DEED**

THIS LIMITED WARRANTY DEED (the "Deed") is made as of the 4 day of November, 2021, by and between NORTHSIDE HOSPITAL, INC., a Georgia non-profit corporation ("Grantor"), and ACCENT CANTON ATLANTA, LP, a Georgia limited partnership ("Grantee") (the terms Grantor and Grantee to include their respective successors and assigns where the context hereof requires or permits).

**WITNESSETH:**

GRANTOR, in consideration of the sum of Ten and No/100 Dollars (\$10.00) and other valuable consideration, the receipt and sufficiency whereof are hereby acknowledged, has granted, bargained, sold, conveyed and confirmed, and does hereby grant, bargain, sell, convey and confirm unto Grantee, the real property described on Exhibit A attached hereto and made a part hereof together with all improvements and fixtures thereon (hereinafter referred to as the "Property").

TO HAVE AND TO HOLD the Property, together with all and singular the rights, members and appurtenances thereof, to the same being, belonging, or in anywise appertaining, to the only proper use, benefit and behoof of Grantee forever in FEE SIMPLE, subject only to (i) the terms, reservations, restrictions, covenants, and conditions set forth in this Deed, and (ii) those matters (hereinafter referred to as "Permitted Encumbrances") described on Exhibit B attached hereto and made a part hereof.

AND GRANTOR WILL WARRANT and forever defend the right and title to the Property unto Grantee against the claims of Grantor and all persons lawfully owning, holding or claiming by, through or under Grantor, but not otherwise, subject to the terms, reservations, restrictions, covenants, and conditions set forth in this Deed and the Permitted Encumbrances.

AND IT IS FURTHER AGREED AND UNDERSTOOD by and between the parties hereto that the Property is being conveyed expressly subject to the covenants, conditions, and restrictions set forth in (i) that certain Declaration of Restrictive Covenants by Northside Hospital, Inc., as "Declarant," dated as of April 29, 2019, and recorded at Deed Book 14362, Page 1754, Cherokee County, Georgia Records (the "201 Hospital Drive Declaration"); (ii) that certain Declaration of Restrictive Covenants by Northside Hospital, Inc., as Declarant, dated as of June 25, 2019, and recorded at Deed Book 14372, Page 1976, Cherokee County, Georgia Records (the "211 Hospital Drive Declaration"); and (iii) that certain Declaration of Restrictive Covenants by Northside Hospital, Inc., as Declarant, dated as of April 29, 2019, and recorded at Deed Book 14247, Page 1645, Cherokee County, Georgia Records (the "220 Hospital Road Declaration"; the 201 Hospital Drive Declaration, the 211 Hospital Drive Declaration, and the 220 Hospital Road Declaration are hereinafter collectively referred to as the "Declarations"). Grantor expressly reserves all rights under the Declarations, including, without limitation, the rights as Declarant with respect to each of

DEED BOOK:14723 PG:1510 Filed: 11/04/2021 01:33 PM Clerk File Number: 28-2021-060285

 Patty Baker, Clerk of Superior Court - Cherokee County, GA  
 ParticipantIDs: 7495336524

the Declarations. Furthermore, Grantee acknowledges and agrees that the 211 Hospital Drive Declaration and the 220 Hospital Road Declaration expressly include a right for Declarant to purchase the Property pursuant to the terms of Article VI set forth respectively in the 211 Hospital Drive Declaration and the 220 Hospital Road Declaration (together, the "Existing Purchase Option"). Grantee expressly acknowledges and agrees that it hereby expressly grants the Declarant a Purchase Option with respect to the entirety of the Property, including, without limitation, the Property encumbered by the 201 Hospital Drive Declaration, on the terms and conditions set forth in the Existing Purchase Option and the terms and conditions of the Existing Purchase Option are hereby incorporated herein by reference with respect to the entirety of the Property. The Existing Purchase Option and the purchase option hereby established herein are hereinafter collectively referred to as the "Purchase Option." Therefore, for the avoidance of doubt, the entirety of the Property, including, without limitation, the portion of the Property encumbered by the 201 Hospital Drive Declaration, is being conveyed to Grantee expressly subject to the terms and condition of the Purchase Option in favor of Declarant. Notwithstanding the foregoing Purchase Option set forth in the Declarations and established hereby, upon (i) completion of the development of substantially all of the Property with improvements intended exclusively for residential purposes (e.g., residential dwelling structures [multi-family and/or single family attached and/or detached]; parking areas, driveways, and roadways primarily for use by the occupants of such residential dwelling structures on the Property; green space and ancillary residential amenities for use by residential tenants or occupants of the Property; residential leasing office; and similar areas directly related to such residential purposes) (collectively, the "Residential Improvements"), and (ii) the issuance of a certificate of completion for the Residential Improvements from the applicable governmental authorities, then the Property shall be released automatically from the Purchase Option.

AND IT IS FURTHER AGREED AND UNDERSTOOD by and between the parties hereto that the Grantee, by its acceptance of this Deed, and, as part of the consideration for this Deed, covenants and agrees the Property (and each portion thereof) shall be used exclusively for residential purposes and uses ancillary thereto (e.g., residential dwelling structures [multi-family and/or single family attached and/or detached]; parking areas, driveways, and roadways primarily for use by the occupants of such residential dwelling structures on the Property; green space and ancillary residential amenities for use by residential tenants or occupants of the Property; residential leasing office; and similar areas directly related to such residential purposes). Neither Grantee nor any of Grantee's successors-in-title shall take any action to cause or permit the use of the Property for purposes other than the residential and ancillary purposes as described above. The Property is being conveyed subject to the foregoing covenants and conditions for the benefit of Declarant and its successors and assigns under the Declaration, which covenants and conditions shall be binding upon and enforceable against the Grantee, its successors, successors-in-title, and assigns with respect to the Property; shall be deemed to run with the land in perpetuity; and that the failure to include such covenants and conditions in subsequent conveyances will not abrogate the status of such covenants and conditions as binding upon the parties, their successors, successors-in-title and assigns with respect to the Property.
