Agenda Item Title:

Action Item - Case RZON2604-010 - Request to Rezone 177.43+/- Acres located at 2030 & 2050 Sam Nelson Road and 650 Talcmine Drive from PD-MU to R-4

Summary:

Bradley Duncel of DCCM for Grid Properties, LLC has filed a rezoning request for 2030 & 2050 Sam Nelson Road and 650 Talcmine Drive. The Applicant is seeking to rezone the property from PD-MU to R-4. The Applicant is proposing to develop the site as a single-family detached subdivision with 225+/- residential units. The site was rezoned by the City in 2021 to PD-MU for a winery, for multifamily and single family residential, for commercial and agricultural land uses.

Budget Implications:

Budgeted? ☐ Yes ☐ No ☒ N/A

Total Cost of Project: Check if Estimated ☐

Fund Source: General Fund ☐ Water & Sewer ☐ Sales Tax ☐ Other:

Staff Recommendations:

Should the City Council vote to approve the request, staff recommend including the eleven (11) conditions as noted in the Staff Report.

Reviews:

Has this been reviewed by Management and Legal Counsel, if required? ☐ Yes ☒ No

East	SF Residential (<i>Laurel Canyon</i>)	PD-MU (Planned Development Mixed-Use)
West	Vacant & SF Homes	County AG (General Agriculture)

Location Map

Future Land Use Map

Zoning Map

Site Description and History

The 177 +/- acre property consists of three (3) tracts, with two having road frontage onto Sam Nelson Road and the remaining having road frontage onto Talcmine Drive. There is an existing telecommunications tower located on the northern portion of 650 Talcmine Drive with a gated driveway access from the end of Talcmine Drive. The property is mostly wooded, and contains former talc mine shafts along the western property line, as shown on the applicant's survey. There are streams located on the property which contain streambank buffers, and the elevation of the property changes significantly to a high peak where the existing telecommunications tower is located.

In 2021, the Canton City Council approved an annexation of the property and rezoning from County AG (General Agriculture) to PD-MU (Planned Development, Mixed-Use) per Case Number RZON2107-002. The applicant proposed to develop the subject 177 +/- acre property with residential (both multi-family and single-family units), commercial land uses, a winery, and agricultural land uses (vineyards, orchards, etc.). This was approved with nine (9) zoning conditions. The Master Concept Plan showed 45 Single-Family Detached, 105 villas, and 108 flats for a total number of 258 residential units.

A memorandum of understanding between Cherokee County and the Property Owner was also incorporated as Condition 1 which indicated a maximum allowed number of residential units at 222 units (72 flats, 45 single-family, and 105 Villas).

Request

The applicant is proposing to rezone the property from PD-MU to R-4 to build between 218 and 225 total fee-simple, single-family, detached residential units (gross density around 1.27 units per acre). The minimum lot size proposed is 7,150 sq. ft. The primary access would be located on Sam Nelson Road, and a second emergency-only access would be located on Talcmine Drive. The proposed development would include an amenity to include a pool, cabana and park space. The applicant also indicates the there will be a minimum of 70 acres of dedicated open space for the development (40+/-%), and a 50-foot exterior buffer will be provided. The proposed development will be conducted over a 3-4 year time period, and will consist of several phases.

The applicant indicates that at a minimum, homes on the site would contain a combination of masonry, shake siding, and hardi-plank for exterior building materials; they would contain two-car garages, and the lots would be sodded.

According to the applicant, there is a proposal to perform an additional traffic study, however, it is requested to be conducted when school is back in session in August. Additionally, the applicant has communicated with the City of Waleska concerning the added water demand and has received confirmation from the City Engineer that sewer is available at two connection points. The applicant further indicates that these units will not be age-restricted, and the price may vary between 400-500K.

Existing Zoning

PD-mixed use: This district is intended to provide for a creative, compatible and connected mix of businesses, offices, and residential uses (not including manufactured homes) which utilize public water and public sewer systems and which otherwise would not be permitted under this UDC because

of the strict application of zoning district or general development standards. The primary intent of this district is to accommodate infill and redevelopment within the city, and the secondary intent is to guide quality greenfield development. This district is established to promote master-planned development that establishes harmonious relationships between buildings, people and cars, maximizes open space opportunities, and offers a wide variety of goods and services that cater to employees, pedestrians, shoppers, and residents.

Proposed Zoning

R-4 Single-family residential (4,000 square feet): This district is intended to provide for high-density, single-family detached cluster residences (not including manufactured homes) which are connected to public water and public sewer systems.

Future Land Use Character Area

Suburban Development Area: These areas are developing as relatively low-density residential developments with no connections to transit. Pedestrian accessibility and other street amenities are dependent on project requirements specified in the planning, zoning, and permitting process. In Canton, many of these areas have steep topography, making building a challenge and threatening some of the scenic vistas which are a great asset to the City. Some development strategies include encouraging smaller lot sizes, interconnected streets, and pedestrian infrastructure; provide ample greenspace and recreational opportunities; require plans for communities which provide for connectivity and good design in terms of architectural style, street and landscapes, and other elements.

Rezoning Review Criteria

1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties;

There are existing residential land uses adjacent to the property. The request would allow for lot sizes generally smaller than those existing nearby, particularly within the Soleil at Laurel Canyon Subdivision. Other properties within the County jurisdiction are mostly zoned agricultural, and are larger in size.

2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;

The proposed request may not affect the usability of adjacent or nearby property as they would be similar land uses.

3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;

The current zoning of the property allows for a mix of land uses including commercial, residential and agricultural as the property was previously rezoned to PD-MU in 2021 for a development containing detached and attached residential units, a winery, resort-style amenities, and agricultural land uses. The current applicant states, "The proposed use of the property by the 2021 zoning to PD-MU proved to be financially infeasible despite several attempts to find a grower and operator for the winery...The proposed

use as a single family detached community is more consistent with the existing properties surrounding the site”.

4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools;

The proposed subdivision may have an effect on increasing traffic particularly along Sam Nelson Road. The proposed emergency access to Talcmine Drive will also require needed improvements to meet city and county road standards. The Cherokee County School District has determined that the proposed number of home at 225 may increase the student population by 164 students. They further indicate that Teasley Middle School is currently operating at 102% capacity. Concerning utilities, the City Engineer has determined that water and sewer are available for the site, and that the developer will need to extend service at the time of land development.

5. Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan and Future Development Map;

The proposed use may be in conformity with the City of Canton Comprehensive Plan in that the area is located within the Suburban Developing Character Area. This Character Area may support residential development up to 3 units per gross acre.

6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

There are no known conditions that affect the use of the property other the existing zoning of PD-MU. The existing road conditions such as sight distance on Sam Nelson Road, and sub-standard condition of Talcmine Drive may affect the development of the property.

7. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources.

There are no known historic buildings on the property. Based on the submitted site plan, the open talc mine shafts located along the western boundary of the property will have to be addressed during the development stage. The applicant is attempting to design the site to avoid these areas. There are no known archaeological resources on the property.

8. Whether the aesthetic and architectural design of the site is compatible with the intent and requirements of the Comprehensive Plan, the Character Areas, and any Overlay Districts.

Single-Family detached housing is exempt from Canton Design Review unless required by the Canton City Council, as a condition of zoning. Architectural features appear to be consistent with those located in nearby subdivisions through the use of board and batten, cementitious and masonry siding, street-facing garages, sodded yards.

DEPARTMENT COMMENTS

BUILDING AND SAFETY SERVICES

Fire would accept the proposed secondary access onto Talcmine Drive for emergency purposes.

COMMUNITY DEVELOPMENT

The applicant is proposing to develop the property with a 50-foot exterior buffer. If possible, this buffer should be located outside of the proposed individual lots to maintain long-term preservation of the buffer, and open space areas. The applicant is also proposing to maintain the subdivision as fee-simple and non-age targeted. To address this, a Homeowners Association should be established and covenants, restrictions, and regulations should be recorded with Cherokee County Deeds and Records. Roadway and entrance improvements should be addressed prior to the issuance of any land disturbance permit and should adhere to all county and city regulations.

ENGINEERING

Sewer is available to the property subject to the applicant extending service and obtaining nearby utility easements. Water is provided by the City of Waleska through a 10" line located on Sam Nelson Road.

CHEROKEE COUNTY SCHOOL DISTRICT (CCSD)

The school system has noted that 164 new students may be added to the system based on 225 residential units. They indicate that additional capacity may also include eight (8) classrooms. They state that nearby affected schools such as R.M. Moore Elementary School is operating at 89% capacity, Teasley Middle School is operating at 102% capacity, and Cherokee High School is operating at 83% capacity. It is recommended that the applicant discuss with the CCSD on how to potentially mitigate the anticipated impact of the proposed request.

CHEROKEE COUNTY TRANSPORTATION

1. Improvements will be required at both proposed entrances.
2. For the main entrance on Sam Nelson, the existing vertical curve deficiencies need to be fixed prior to the site being open to the public.
3. Talcmine Drive would need to be fully widened to accommodate the needed improvements.
4. Developer would be responsible for funding the roadway improvements.
5. A left-turn lane at the entrance may be required due to the number of proposed homes.
6. The County maintains about 0.228 miles of Talcmine Drive to the end of pavement (130 +/- feet short of the subject property).

STAFF CONDITIONS FOR CONSIDERATION

Should City Council approve the request, staff recommend including the following conditions:

- 1. The maximum number of residential units shall not exceed 222;**
- 2. An updated Traffic Study shall be conducted and provided to the Community Development Director prior to Land Disturbance Permit (LDP) approval;**

3. A fifty (50) foot buffer shall be provided along the exterior of the property. Where a lot is located closer than 200-feet to any existing home within the Laurel Canyon subdivision, a one-hundred (100) foot buffer shall be provided in lieu of the 50-foot buffer. All buffer areas shall provide a year-round visual screen;
4. Prior to Land Disturbance Permit (LDP) approval, a study shall be provided to determine the status of former talc mines located on-site. The study shall provide information concerning decommission of the former mines, and shall be reviewed and approved by the Community Development Director, or their designee, prior to LDP approval;
5. Prior to Final Plat approval, covenants, deeds, and restrictions shall be recorded establishing a 10% rental cap for the subdivision;
6. The minimum lot size shall be 6,500 square feet;
7. No residential lot shall be located within the fall zone radius of the existing telecommunications tower on the property;
8. A minimum of 40% of the property shall be platted as open space. The open space shall be deeded to an established Homeowner's Association for the subdivision.
9. Vinyl siding is prohibited;
10. The Developer shall construct project-related improvements to both Sam Nelson Road and Talcmine Drive at the satisfaction of the Cherokee County Engineer.
11. The Georgia Native Plant Society shall be allowed to enter the property prior to any land disturbance activities to locate and rescue any native plant species within the limits of disturbance.

PUBLIC SCHOOL INFORMATION

Project #(s):

RZON2604-010

PUBLIC SCHOOL POLICY STATEMENT:

"The Mayor and Council of the City of Canton hereby recognize that growth and development can, at times, have an effect on school capacity within the county and therefore recognize the need to share information on developments that have regional impact. In an effort to cooperate with the Cherokee County School [District] and share information on residential rezoning requests, master plan applications, and land use modifications to the comprehensive land use plan, the Mayor and Council hereby encourage open dialogue and meeting between the Applicant and the appropriate school board representative." (105.10.04)

- **Developers whose projects consist of 25 or more residential units shall contact the Cherokee County School District and communicate with a school board representative to discuss their intent.**
- **This communication between the Applicant and the school board should take place, at a minimum, prior to the Informational Item meeting in Month Two (see Pages iii and iv).**
- The Applicant should be prepared to address such communication if requested by the Mayor and Council at the meeting in which final action is to be taken.

The current Cherokee County School District contact regarding any potential mitigation required for this application and proposal is:

REVIEW CRITERIA

Project #(s):

RZON2604-010

How will this proposal be compatible with surrounding properties? The surrounding properties are located within the City's SDA (Suburban Density) character area. The property is located within the City's growth boundary line.

How will this proposal affect the use and value of surrounding properties? The surrounding properties are primarily zoned for residential and therefore compatible with the proposed residential use of this property. There should be no negative impacts from zoning this property to R-4.

Can the property be developed for a reasonable economic use as currently zoned? Please explain why or why not. The current zoning of PU-MD was created specifically for its proposed use as an agribusiness themed development. Since the time of this rezoning in 2021, the property owner has been unsuccessful in securing a developer/operator for that type of facility.

What would be the increase to population and traffic if the proposal were approved? The total number of residential units has been reduced from 258 to 225. Additionally, the winery and event center has been eliminated further reduce the traffic volume.

What would be the impact to schools and utilities if the proposal were approved? The availability of water and sewer capacity has been confirmed with the providers. A schedule for the phase in of new residential units has been provided to the school board.

How is the proposal consistent with the Comprehensive Plan and the Future Land Use Map? The comprehensive plan identifies this area as SDA (Suburban Development). Although R-4 is not a potential zoning district under the SDA character area, the proposed lot sizes and densities match well to the existing surrounding developments.

How is the proposal consistent with the City of Canton Roadmap of Success? The proposal meets the Roadmap for Success for providing "Great Neighborhoods". Quality built homes from a top-tier national builder will supply much needed inventory for this area. Secondly, over 40% of the property will be preserved as greenspace meeting the tenet for "Natural Environment".

Are there existing or changing conditions which affect the development of the property and support the proposed request? New developments within this area of the City are virtually built-out with demand still strong for new homes in this area.

This property has access to existing utilities which support its use for the residential uses proposed.

(These criteria should additionally be addressed in the required Letter of Intent.)

Project Narrative for Sam Nelson Road Tract

REVISED 5/5/26

LOCATION – 2030 & 2050 Sam Nelson Road and 650 Talcmine Road, Canton, GA 30114

ACREAGE – 177.43 acres +/-

PARCELS – 14N09 034B, 14N09 034E & 14N10 041

EXISTING ZONING – PD-MU

REQUESTED ZONING – R-4

APPLICANT – DCCM

Summary

The accompanying application seeks zoning district change from PD-MU to R-4 for 177.43 +/- acres of unimproved property located on Talcmine Road and Sam Nelson Road in the City of Canton, approximately 1.4 miles west of Waleska road (GA 140). The intent is to develop up to 225 units of single-family detached housing along with an amenity center while maintaining a significant amount of open space. The proposed use is consistent with the Canton's Comprehensive Plan for "suburban development" use and appropriate for the City of Canton's R-4 District and for this location. Completion of development is anticipated by 2031.

Site Description

Subject Property is currently vacant and undeveloped, except for a cell tower site (+/- 8.81 acres) in the northern part of the property east of Talcmine Road and except for the remnants of mine shafts on the west side from the days when the Property was used for talc mining operations.

The topography of the Property climbs dramatically from (approximately 400 feet) its low point in the south to its high point near the cell tower. To locals it has been known as "Polecat Mountain" for years. There are streams on the Property which will be buffered per state stream buffer and local requirements. There is no floodplain on the Subject Property.

The parcel has approximately 420 LF of frontage along Sam Nelson Road, is rectangular in shape and averages 2,800 LF deep. The site has a significant number of trees and other vegetative cover. Domestic water provided by the City of Waleska from a 10" water main located in Sam Nelson Road. Domestic sanitary sewer will be provided by City of Canton through existing sewer infrastructure south of the property. All other dry utilities are located within a reasonable distance for service extensions. There are no known impediments to its successful development for the purposes intended.

Adjacencies

The property is surrounded by residential zonings, primarily PD-MU to the east and south and AG to the north and west.

Access

Access to the property is from Sam Nelson Road approximately 1.4 miles west of Waleska Road (GA 140). A secondary, emergency access is proposed from Talcmine Road.

Zoning History

This property was rezoned to PD-MU in 2021. The approved uses at that time included:

- A Winery & Cooperage (3,500 SF) containing an artisan village, winemaking and cooperage building, and meeting areas for tourists and guests.
- A 23,500 SF complex (The Center) containing restaurants, wine tasting, retail, conference and classroom space, as spa and wellness center, underground wine cellar, 108 stacked flats, and outdoor plaza, pool and outdoor amenities.
- A single family detached area comprised of 45 – 100' x 100' homesites.
- A multi-family area comprised of 105 villas
- 31 acres of vineyards
- 10 acres of gardens, groves, orchards, walking trails, ponds and a pavilion.

Zoning Request

This request for an R-4 zoning includes the following:

- 225 single family detached homes (55' x 130')
- An amenity including pool, cabana and parks
- At least 50 acres of permanent open space

Comprehensive Plan Consistency

The project is consistent with the “suburban development” designation of the Future Land Use Map, and is not known or believed to be in conflict with the plan’s vision.

Traffic Impact Study

A Traffic Impact Study is not included as part of this submittal.

Development Strategy

The proposed use of the property by the 2021 zoning to PD-MU proved to be financially infeasible despite several attempts to find a grower and operator for the winery. Although grape prices have somewhat recovered over the past two years, the amount of time to grow grapes to maturity for wine production remains challenging. The proposed use as single family detached community is more consistent with the existing properties surrounding the site. Development of the property will be accomplished in two or three phases over a three-to-four-year period.

Aerial View

Project Dimensional Standards

Proposed Dimensional Standards	
	Single Family - Detached
Acreage (Overall)	177.43
Density (Gross)	1.27
Density (net)	1.52
# of Lots	225
Exterior Buffer to PD Zoning	50'
Minimum Open Space (Overall)	30%
Sidewalks	5', both sides
Lot Coverage	50%
Minimum lot width @ building line	55'
Minimum lot area	7,150 SF
Maximum height	40'
Front setback from ROW	20'
Rear setback	15'
Side setback	5'
Corner Lot Setback	20'
Side Separation (foundation to foundation)	10'
Guest Parking	2 per Unit
Minimum heated floor area	1,500 SF

Architectural Materials & Site Improvements

Although a specific builder group has not been identified, at a minimum the homes would follow a design theme that would include:

- Two-car garages
- Front facades with a combination of masonry and hardi-plank materials
- Side & Rear facades with hardi-plank or shake siding
- Architectural weight shingles
- Sodded yards (4 sides)
- One street tree per home (minimum 2 ½" caliper)

Entrance Monumentation

The entrance may be gated and if so, the private streets will be maintained by the Homeowner's Association (HOA). All necessary requirements to allow access for public safety and other services will be provided. At least one central mail kiosk will be provided subject to USPS review and approval. The entrance may include the following structural items:

- Masonry walls
- Wood or PVC fencing
- Gate House
- Operable or Faux Gates
- Illuminated Signage in accordance with the City of Canton Sign Ordinance
- Ornamental Sculpture
- Landscaping & Irrigation

Amenities

The community amenities will vary depending on the housing option executed but at a minimum will contain the following items:

- Covered cabana with restrooms
- Pool & decking
- Dog Park
- Parking Lot

Other amenities, at the sole discretion of the Developer, may include the following items:

- Walking Trails
- Tennis or Pickle Ball Courts
- Playground
- Passive Pocket Parks
- Fire Pit
- Basketball (multi-use) Court
- Enclosed Clubhouse

Signage

The Developer and/or Builder shall be allowed to post permanent directional signs and monuments within the Community to direct traffic to sales and recreation centers and to identify differing residential areas. All permanent internal signage must be outside of any Right of Way or Utility Easement with a Landscape and Signage easement recorded on the Final Plat.

Temporary Sales and Marketing signs not exceeding 32 square feet per sign face and 8 feet in height may be used along Sam Nelson Road.

Utilities

A letter from Bethany Watson, P.E., City Engineer, indicates that sewer is available for the property, subject to obtaining easements and extending service where necessary. Water service is proposed from the City of Waleska through a 10" main located in Sam Nelson Road.

Landscaping

In addition to extensive landscaping at the entrance, individual homes will be landscaped with a variety of foundation planting schemes, at least one mature hardwood tree per lot and 4-side sod lawns. The amenity will be heavily landscaped to create a sense of arrival consistent with the recreational nature of the space.

Model Home Permits

Applicant requests that up to ten (10) model home permits be issued prior to Final Plat recording provided that hard surface (crusher run) access is provided and fire protection (functioning hydrant) is located within 500 feet of any structure under construction. However, no certificate of occupancy permits (CO) will be issued prior to final plat recording. Model Homes may be utilized as temporary offices.

Sales and Construction Trailers

Applicant is requesting permission to install one sales trailer and one construction trailer with associated parking areas in locations to be determined at the time of street paving and possible ahead of final plat approval.

Homeowner's Association

A Homeowner's Association will be created in order to administer the covenants, conditions and restrictions that will be placed on the property by the Applicant. The HOA will manage the overall management of the property including maintenance, architectural controls and financial management.

Conceptual Master Plan

The development of the community shall be controlled by the Conceptual Master Plan (the "Plan") attached as exhibit "A". The plan is considered conceptual in nature, and as such may require minor modifications during the engineering and development process. Modifications to the locations and arrangement of lots, roads, amenities, and other improvements that do not conflict with specific standards and requirements of these conditions may be made by the Developer, so long as such modifications do not change the land use, increase the overall density of the project or reduce any established exterior buffers or setbacks.

REQUIRED CONSTITUTIONAL AND ANTE LITEM NOTICE

Georgia law and the procedures of City of Canton requires the Applicant to raise Federal and State constitutional objections during the R-4 master plan application process. While the Applicant anticipates a smooth application process, failure to raise constitutional objections at this stage may mean that the Applicant will be barred from raising important legal claims later in the process. Accordingly, the following constitutional objections are stated:

The portions of the City of Canton Development Code, facially and as

applied to the Property, which restrict the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than that proposed by the Applicant are unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States.

The application of the City of Canton Development Code, facially and as applied to the Property, which restricts the Property to any uses, conditions, land use designations, development standards, or to any zoning district other than in accordance with the application as proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States; Article I, Section I, Paragraph I, and Section III, Paragraph I of the Constitution of the State of Georgia of 1983; and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would be unconstitutional under the Takings Clause of the Fifth Amendment to the Constitution of the United States and the Just Compensation Clause of Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983. A refusal by the City of Canton City Council to approve the zoning conditions as requested would constitute a taking of the Applicant's property.

A denial of this Application would constitute an arbitrary and capricious act by the City of Canton City Council without any rational basis therefore constituting an abuse of discretion in violation of Article I, Section I, Paragraph I and Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States. A refusal to grant the R-4 zoning request would lack objective justification and would result only from neighborhood opposition, which would constitute an unlawful delegation of the zoning power to non-legislative bodies in violation of the Georgia Constitution, Article IX, Section II, Paragraph 4.

A refusal by the City of Canton City Council to approve this Application for the Property in accordance with the criteria as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of the similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any rezoning of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the Property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Property to a unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth

hereinabove.

I. CONCLUSION

For the foregoing reasons, the Applicant respectfully requests that this R-4 master plan application be granted as requested by the Applicant. If there are any questions about this request, you may contact:

**PUBLIC HEARING PRE-APPLICATION REVIEW
ACKNOWLEDGEMENT AND DISCLOSURE**

Property Address: 2030 & 2050 Sam Nelson Road and 650 Talcmine Road, Canton, GA 30114

Parcel ID(s): 14N09 034B, 14N09 034E & 14N10 041

Requested Zoning/Permit: R-4

By initialing below, the Applicant understands and acknowledges that City Staff have conducted a preliminary review of the above-referenced proposal for general consistency with the City of Canton Comprehensive Plan.

Based on this preliminary review, the proposed request:

- ☒ Is **consistent** with the City of Canton Comprehensive Plan.
☐ Is **inconsistent** with the City of Canton Comprehensive Plan. (Staff will recommend Denial.)

Applicant Initials: BKD

(This section is to be completed by City Staff.)

SEP 05/05/2026

By initialing below, the Applicant understands and acknowledges that, following formal submittal and full review of the application, City Staff will issue a written recommendation to the Mayor and City Council for consideration. Such recommendation may be:

- Approval,
- Approval with Conditions/Stipulations, or
- Denial

Applicant Initials: BKD

By initialing below, the Applicant understands and acknowledges that:

- The Mayor and City Council is the final decision-making authority on all annexation/rezoning/CUP/master plan requests.
- The Mayor and City Council may approve, approve with conditions/stipulations, deny, or table the request.
- The Mayor and City Council may agree with Staff's recommendation, disagree with Staff's recommendation, and/or impose additional conditions/stipulations as part of its decision.
- This preliminary review and acknowledgement does not constitute approval or denial, and does not guarantee any particular outcome.

Applicant Initials: BKD

**PUBLIC HEARING PRE-APPLICATION REVIEW
ACKNOWLEDGEMENT AND DISCLOSURE**

By signing below, the Applicant acknowledges that:

- They have participated in a pre-application and/or preliminary staff review.
- They have been informed of the preliminary determination regarding Comprehensive Plan consistency.
- They understand the role of Staff recommendations.
- They understand the authority and discretion of the Mayor and City Council.
- They understand that this acknowledgement is advisory in nature and does not bind the City of Canton, its Staff, or its elected officials to any particular action or decision.

Re: 14N10041

Dear Mr. Atlee,

The City of Canton is aware of the plans to develop the above-mentioned parcel into 220 single family detached units. The permitting would begin in roughly 90-120 days with a construction estimated start date in the later part of Q1 2027 that should complete site development in Q4 of 2027. The CO for the homebuilder would be roughly around Q1 of 2028.

This letter confirms that the parcel has water and sewer available for the property. Please note that the developer of these land lots will be required to extend the water and/or sewer line to service and any easements will be the responsibility of the developer. At the time of application, you will be required to pay the water tap fees, including any deposits or administrative costs.

If you have any questions or require additional information, please contact me at (770)704-1521 or email Bethany.watson@cantonga.gov.

Bradley Dunckel
DCCM
425 Oak Street
Gainesville, GA 30501

Dear Mr. Dunckel:

The Cherokee County School District's Division of Support Services is in receipt of your zoning application **RZON2604-010** requesting the rezoning of **177.43 +/-** acres from **PD-MU** to **R-4** for the construction of **225** single-family residential units. Please reference the attached zoning impact report for details on the projected effect of your proposed development on CCSD enrollment.

It is the position of the School District that all developers should attempt to voluntarily mitigate the impact of their proposed development. In every such case, the District designates a minimum contribution to help provide adequate facilities for the school-age children who will occupy the residences in the development. A meeting between the School District and the property developer is requested before the zoning hearing to discuss the impact of your proposed development on area schools, as well as a consistent donation to mitigate the impact on the School District.

Over a decade of rapid growth and development has increased the overall population of Cherokee County, placing a strain on infrastructure and public safety. These same developments have an impact on School District facilities as well. The School District strives to be proactive in establishing new schools to open when and where they are most needed. Given the explosive growth of the past decade, rising budget constraints, and unfunded or underfunded state mandates, achieving this objective continues to be a formidable task. The School District relies on donations provided by developers to help obtain additional property to construct schools or to purchase/relocate portable classrooms to provide temporary relief for overcrowding and offset the costs while a more permanent solution is developed. The School District believes that your willingness to voluntarily address and mitigate the logical consequences of your proposed development will promote the value and marketability of your development by providing adequate school facilities for the new residents of your development.

In cases where no agreement can be reached, the School District can make no guarantee that the proposed development will remain in the same school boundary area. All school boundaries are evaluated annually for overcrowding concerns during the annual Attendance Area Focus Group Process.

Please contact my office at your earliest convenience to arrange an appointment and discuss the impact of your proposed development, as well as any possible mitigation.

Sincerely,

Mitchell Hamilton

Mitchell Hamilton

Rezoning Case Impact Report

Jurisdiction		Rezoning Case Number		Applicant Name	
City of Canton		RZON2604-010		DCCM	
Acreage	Number Of Lots	Housing Type		Current Zoning	Proposed Zoning
177.43	225	Single Family Residential		PD-MU	R-4
Estimated Student Impact ⁽¹⁾		Additional Capacity Needed		Additional Capacity Cost ⁽²⁾	Annual Student Cost ⁽³⁾
164	Students	8	Classroom(s)	\$222,443	\$1,418,209
Planning Commission Meeting Date		County Commission/City Council Meeting Date		Map & Parcel Number(s)	
				14N09-034B &-034E; 14N10-047	
Property Description					
2030 & 2050 Sam Nelson Rd & 650 Talcmine Road Canton 30114					

Affected Schools Capacity Information

Elementary School	ES Enrollment	ES Capacity	% Capacity
R.M. Moore ES	970	1,088	89%
Middle School	MS Enrollment	MS Capacity	% Capacity
Teasley MS	1,554	1,518	102%
High School	HS Enrollment	HS Capacity	% Capacity
Cherokee HS	2,778	3,360	83%

All Enrollment and Capacities are based on the last published Cherokee County Inventory of School Housing (CCISH) Numbers.

It is the position of CCSD that all developers should attempt to mitigate as much of the impact of their proposed development as possible. In every such case, the district designates a minimum contribution expected to help provide adequate facilities for the school-age children who will occupy the residences in the development.

Please recommend to all Residential Zoning applicants to contact Mitch Hamilton at 770-721-8429 to discuss mitigation of their subdivision before appearing before the Zoning Board. If the applicant cannot meet during that time, we request that the Zoning Board put a condition on the zoning so they must meet with Mr. Hamilton before the City Council/County Commission Meeting.

The estimated cost for building an elementary school is 40 to 45 million dollars, middle school is 65 to 70 million dollars, and the cost of building a high school is 100+ million dollars.

(1) - All increases in student enrollment should be considered cumulative. All recent cases will impact the affected Schools. The School District may have to transport the students of any given development to an alternate district due to over-enrollment.

(2) - Additional Capacity Calculations are based on adding Mobile Units to existing campus facilities at the following rate: 1 Mobile Unit = 2 Classrooms with a cost of \$60,000/Mobile Unit

(3) - Annual Cost is calculated using the General Fund Operating Expenditure cost per pupil of \$8,694.

ORDINANCE #RZON2107-002**REZONING****CITY OF CANTON**

Applicant: Grid Properties, LLC, c/o Linda Dunlavy

An Ordinance approving the rezoning of the following described property:

ALL THAT TRACT OR PARCELS OF LAND lying and being in Land Los 99 and 100 of the 14th District, 2nd Section of Cherokee County Georgia and being more particularly described on Exhibit "A" attached hereto and incorporated herein by reference. Said properties containing 177.43 acres and known as 2030 and 2050 Sam Nelson Road and 650 Talc Mine Drive, further known as Parcels 034B and 034E found in Tax Map Book Number 14N09 and Parcel 041 found in Tax Map Number 14N10.

WHEREAS, it is hereby found and determined that a petition to change the zoning of the above-described property from AG (Agriculture, Cherokee County) to PD-MU (Planned Development-Mixed Use, City of Canton) was filed with the City of Canton and,

WHEREAS, the Mayor and City Council held a public hearing on October 7, 2021 in regards to this application.

PROPOSED USE: Winery resort and residential uses

NOW THEREFORE, be it resolved that the Mayor and City Council of the City of Canton does hereby amend the Official Zoning Map to reflect the above referenced property being zoned to PD-MU with the following conditions:

1. The Memorandum of Understanding, as agreed upon by Cherokee County and the property owner, said document being signed by Harry Johnston, Chairman of the Cherokee County Board of Commissioners and Richard H. Stewart, property owner, shall be adhered to during the development process.
2. An environmental impact study shall be performed prior to the issuance of a Land Development Permit. This study shall ascertain the existence or non-existence of harmful particles remaining on the property as a result of the talc mine operation. Remediation issues shall be addressed.
3. The hours of operation for events that take place outdoors shall be limited to Sunday thru Thursday 8:00 a.m to to 10:00 p.m and Friday thru Saturday 8:00 a.m. to 1:00 a.m.

4. The Land Disturbance Permit shall contain a map locating each talc mine/shaft.
5. All talc mines/shafts shall be secured by fence or gate and lock prior to the issuance of any building permit.
6. The owner/developer shall provide an area of adequate size to accommodate a water storage tank. The size of the property and tank shall be determined by the City of Canton Utility Engineer.
7. Grid Properties shall make reasonable efforts to get the current owner of the existing cell tower, American Tower Corporation, to provide space on the existing tower for placement of antennae to be used by the City of Canton and Cherokee County.
8. Talc Mine Drive may continue to be used for access to the existing communication and water tank towers on the property but shall not be used for any other purpose unless otherwise approved by both the City and Cherokee County.
9. The appropriate jurisdictions shall provide water to the project.

Adopted this 21st day of October 2021.

Bill Grant, Mayor

Attest: 

Annie Fortner, City Clerk

Approved as to Form and Content:

Robert M. Dyer, City Attorney
