Re: Glass Recycling

Billy, I have attached two letters, one for City of Canton customers, upon approval, and the second, one of our notification letters from WestRock. As we discussed, the secondary processor, Strategic Materials, will no longer accept glass from single stream recycle programs. At this time, Strategic is the only glass processor in Atlanta Metro.

Most of the surrounding cities are eliminating glass in the near future or have already stopped accepting glass in their curbside residential programs (Kennesaw, Smyrna, Marietta, and Woodstock).

Several community drop centers are listed at the bottom of the WM letter, these sites will accept glass from individuals, sorted by color. These locations are for individual use only, not commercial use.

I will be available at the June 2 work session to answer any questions from Mayor and Council. In addition, I am available to attend HOA meetings if needed.

Thank you,
