2) Old Business

a. 2017 First Friday Planning – The committee had a very good working session and has come up with the proposed themes for this year’s First Friday events. There were several suggestions received from the Board, Community and City Management (Manager, Mayor and Council). We were able to include ideas from everyone and we have many other items that have been saved for consideration for possible events (Music, Movies, Dinner on Main, etc.). Those items will be presented and vetted through the full Board at a future meeting. The proposed schedule for First Fridays is included in a separate document for ease of presentation. Note, the proposal includes a movie in Canton Theater at 9pm after each event as suggested by City Management. This is something new and exciting to offer!
