Note: Complete a separate form for each authorized applicant.

DAVIS ENGINEERING
& SURVEYING

Est. 2009

CIVIL ENGINEERING | LAND SURVEYING | CONSTRUCTION LAYOUT

August 1, 2024

Dear Canton Board of Appeals,

This letter serves as a formal request to reduce the required 50-foot buffer to a 25-foot buffer for a proposed gas station/convenience store development at 1671 Ball Ground Hwy in the City of Canton. The following information outlines the project and justification for the buffer reduction.

The proposed development is a gas station/convenience store with 6 MPDs, a 5,750 s.f. convenience store, patio, 15 parking spaces and a stormwater management facility. 1671 Ball Ground Hwy is zoned General Commercial, making the convenience store an allowed use with commercial zoning on one side, right-of-way on two sides and an undeveloped residential lot on the other side. The property has yet to be developed. There is not a major increase in vehicle traffic to this area of Canton anticipated as convenience stores are more so for those already in that particular area and should not add a significant increase to the current traffic count.

The proposed development will require a significant retaining wall along the sides and rear of the property which will create a noise and visual buffer for the residential property to the right. The rear of the property touches an unopened right-of-way belonging to Cherokee County. Being that there is no road here, that creates an additional 50' of undisturbed area before reaching the next property leaving 75'+ of area between the proposed retaining wall in the closest property line to the rear of the site. For this reason, we feel the buffer reduction will not cause any major impact to the adjacent properties.

The proposed design will adhere to other requirements set forth by the City of Canton, Cherokee County, and Georgia Department of Transportation.

We respectfully request that the Canton Zoning Board of Appeals grant a variance to reduce the required buffer from 50 feet to 25 feet for the proposed gas station/convenience store development. We believe that the proposed development will be a valuable asset to the community and that the requested buffer reduction is justified based on the site-specific conditions and proposed mitigation measures. We look forward to the opportunity to discuss this request further with the Board and address any questions or concerns.

Sincerely,
Nick Pesola, EIT

Thanks Steve.

For Cherokee County, GC next to R-40 is a 35-foot buffer. We do not require a buffer adjacent to R/W.

That being said, should the ZBA approve the request, we ask that the approval no include for structures (i.e. convenience store, or fuel pumps/canopy) to be constructed within the buffer. Their plan shows only paving and stormwater detention, and we would be ok with this.

Let me know if you have any questions.

Thanks,
