Site Description: One of the subject properties is currently occupied by a single family home and the rest of the property is vacant/undeveloped.

Site History: The property was brought before the Mayor and City Council for annexation in 2022. The proposed development was for 114 townhome units. The annexation was denied.

CRITERIA TO BE APPLIED – LAND USE PETITION (REZONING)

1. **Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties;** The proposed use will be compatible with adjacent and nearby uses.
2. **Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;** Ther proposed use will not adversely affect adjacent and nearby property.
3. **Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;** The current zoning, AG, is not in keeping with nearby zoned properties.
4. **Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools;** The zoning proposal will not result in a use that would cause excessive or burdensome use of streets, transportation facilities, utilities or schools.
5. **Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan and Future Development Map;** The suggested density for the Suburban Development Character Area is 1 to 3 units per acre. The applicant is requesting 75 dwelling units which equates to a density of 5.18 units per acre.
6. **Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.** The area has seen a new apartment complex built in recent years. Other than that the area has been fairly stable.
7. **Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources.** There are no historic sites, buildings or archaeological resources on the subject property.
8. **Whether the aesthetic and architectural design of the site is compatible with the intent and requirements of the Comprehensive Plan, the Character Areas, and any Overlay Districts.** If approved the townhome buildings will be reviewed and approved by the Canton Oversight Committee.

CRITERIA TO BE APPLIED – CONDITIONAL USE PERMIT

- a. **Whether the proposed use is consistent with the comprehensive plan and other adopted policies of the City;** The requested density is not consistent with the recommendation of the comprehensive plan.
- b. **Whether the proposed use complies with the requirements of this zoning ordinance;** If approved the development will comply with the UDC.
- c. **Whether public services, public facilities and utilities are adequate to serve the proposed use;** The school board has not responded to these applications.
- d. **Whether the proposed use will create adverse impacts upon any adjoining land use by reason of:**
 - 1. **Noise, smoke, order, dust or vibration generated by the proposed use;**
None
 - 2. **Hours or manner of operation of the proposed use; and**
None
 - 3. **Traffic volumes generated by the proposed use**
None
- e. **Whether the proposed use would result in an over-concentration of the subject use type within the area of the proposed use;** The area is mainly single family, detached homes. The addition of townhomes would provide a different means of housing.
- f. **Whether the aesthetic and architectural design of the site is compatible with the intent and requirements of the comprehensive plan, the character areas, and all applicable zoning ordinance regulations;** The townhouse component would be reviewed and approved by the Canton Oversight Committee in regards to the exterior appearance. and
- g. **Whether the proposed use is compatible with adjacent properties and land uses, based on consideration of the size, scale and massing of proposed buildings and the overall site design.** The proposed use would be compatible with adjacent and nearby uses.

The City of Canton has an automatic sprinkler system ordinance. All multi-family residential construction (three family dwellings or more) requires an NFPA 13R automatic sprinkler system. For commercial development, any structure over 3,500 square feet shall require an NFPA 13 automatic sprinkler system.

This project may require two or more entrances based on the number of dwelling units constructed. This requirement is in the City of Canton Unified Development Code (UDC), section 109.03.12 - Development access and the 2018 International Fire Code Appendix "D".

The minimum diameter fire main size is 8". Fire hydrant placement is based on both the City of Canton UDC, section 110.02.02 (f)- Design criteria and appendix B and C of the 2018 International Fire Code which has been adopted as law in the City of Canton.

Mail Kiosks shall meet the 2010 Federal ADA standard and USPS-STD-4C. A van accessible handicap parking space and access aisle is required to serve an accessible route to the mail kiosk.

Specific 2018 IFC requirements for civil plans:

1. The 2018 International Fire Code, appendix "D" requires fire apparatus access roads not exceeding 10% grade and for local Cherokee County fire apparatus requirements, access road cross grades may not exceed 5%.
2. Roads throughout the development must be at minimum made of asphalt or concrete capable of supporting the imposed load of fire apparatus weighing up to 75,000 pounds.
3. Turn radiuses for all streets shall be 35' minimum for development entrances and 25' for interior streets. Proof of turning radius compliance shall be demonstrated using software analysis such as "AutoTURN" or other clearance/swept path analysis software. For tire curb clearances, bumper swing clearances or inside crimp angles, contact Cherokee County Fire & Emergency Services.
4. Dead end fire apparatus access roads in excess of 150 feet in length shall be provided an approved area for turning around fire apparatus.
5. Aerial fire apparatus streets are required where the vertical distance between the grade plane and the highest roof surface exceeds 30'. The required width of an aerial apparatus road shall be 26' minimum and constructed as noted in note #2 above. One or more of the aerial access routes meeting the building height condition shall be located not less than 15' and not greater than 30' from the building and shall be positioned parallel to one entire side of the building. Overhead utilities and power lines shall not be located over the aerial apparatus road.

Conditions for Consideration

COMMUNITY DEVELOPMENT

The proposed development contains 59 single detached homes and 16 townhome units. The proposal is for private streets with a concurrent variance requesting the elimination of gated streets.

CHEROKEE COUNTY PLANNING AND ZONING DEPARTMENT

The Board of Commissioners voted unanimously to express their concerns about the project relative to density, transportation and fire/emergency services. The following requests are outlined to address these concerns:

- 1 The surrounding County parcels to the north and east are zoned R-20 and are located within the Suburban Living Character area which has a density of 1-3 dwelling units per acre. Therefore, it is suggested that there be gradual decrease in the dwelling units per acre to provide a transition in density from the southern Prominence Point Subdivision (4.98 DUA) to the Mills Ridge Subdivision (located north of the proposed development).
- 2 Require transportation improvements recommended in the traffic study.
- 3 Redesign the four dead end private streets to cul-de-sacs to allow for fire emergency access.
- 4 Review the single access to the proposed development as it will create congestion.
- 5 Consider a zoning condition to ensure that it will be a For Sale development.

PUBLIC SCHOOL POLICY STATEMENT

The Mayor and Council of the City of Canton hereby recognize that growth and development can, at times, have an effect on school capacity within the county and therefore recognize the need to share information on developments that have regional impact. In an effort to cooperate with the Cherokee County School Board and share information on residential rezoning requests, master plan applications, and land use modifications to the comprehensive land use plan, the Mayor and Council hereby encourage open dialogue and meeting between the applicant and the appropriate school board representative. Therefore, developers whose projects consist of 25 or more residential units shall contact the Cherokee County School Board and communicate with a school board representative to discuss their intent. The applicant should be prepared to address such communication if requested by the Mayor and Council at the meeting in which final action is to be taken. (Section 8-8-B-37) (Amended: 12/07/00)

RE: Application of Traton Homes, LLC for Annexation, Rezoning, Master Plan,
Conditional Use Permit and Variances for properties located in Land Lot 203 of
the 15th District; Cherokee County, Ga.

LETTER OF INTENT

Dear Steve:

Traton Homes, LLC proposes to build a neighborhood with 59 single-family homes and 16 townhomes on approximately 14.33 acres and annexing the Subject Property into the City of Canton. The Subject Property is an assemblage of multiple parcels as depicted on the site plan and survey filed with this application. The subject property consists of 2 single-family home with accessory structures. The westernmost portion of the subject property consists of a power easement. Traton Homes an experienced local homebuilder known for building quality neighborhoods in Florida and metro Atlanta including projects currently under construction in Cherokee County.

The totality of the Subject Property is situated in unincorporated Cherokee County and is zoned AG. The property to the north and west of the subject property is an established subdivision known as Mills Ridge consisting of R-20 (county) zoning, which was constructed in the 1980's. East of the Subject Property is are a single-family home and a mobile home. South of the Subject Property is the Prominence Point subdivision, which is in the City of Canton. Under Cherokee County's Comprehensive Plan, the Subject Property is in the Suburban Living category.

The Applicant's proposal includes the construction of 75 single-family for-sale homes, 16 of those homes will be attached. All internal streets will be private. A concurrent variance is being filed to eliminate the gate requirement for private streets. The property is a transition from the intensity of uses and development on Prominence Point Parkway and the lower-density neighborhood to the west. The site plan includes a fifty (50) foot buffer adjacent to the existing neighborhood to the west.

July 5, 2024

Page 2

Access to the proposed development will be from Prominence Point Parkway, a four-lane median-divided roadway. The proposed development will have one driveway at a median break as depicted on the proposed site plan. A Traffic Impact Study is submitted with this application. The Applicant plans to conduct an updated study after the 2024-2025 school year begins and submit that revised study to supplement this application.

REVIEW CRITERIA

How will this proposal be compatible with the surrounding properties?

The Applicant's proposal of PD-Residential will provide a mix of housing in the Prominence Point corridor. The proposed density is far less than the multifamily Indigo Apartments to the north and similar to the density to the existing residential across Prominence Point Parkway.

How will this proposal affect the use and value of the surrounding properties?

The annexation, zoning, CUP, Master Plan and variance proposals will not adversely affect adjacent or nearby properties' existing use, usability, or value. This section of Prominence Point Parkway is a variety of older neighborhoods with similar or higher density.

Can the property be developed for a reasonable economic use as currently zoned? Please explain why or why not.

There is no reasonable use of the Subject Property under any other zoning classification than as requested by the applicant. It has little to no reasonable economic use if it cannot be developed as proposed by the Applicant. The Subject Property is currently zoned AG in Cherokee County which is not the best use for the site and is inconsistent with the county's land use plan and the development in the area.

What would be the increase to population and traffic if the proposal were approved?

The 75 proposed residential units would cause an increase in both population and trip generation. The increase in population and traffic is consistent with current growth trends throughout Cherokee County and the metro area and as outlined in the City's *Impact Fee Program Capital Improvements Element* (p.48). The Applicant is willing to work with the Department of Transportation with respect to the access and improvements from Prominence Point. The Applicant will also work with the City to ensure standards for right of ways are met in residential developments as outlined in the *Canton Roadmap for Success*. All internal streets will be private. The Applicant has engaged the services of A&R Engineering, Inc. to perform a traffic study, the results of which will be presented to the City upon its completion.

July 5, 2024

Page 3

What would be the impact to schools and utilities if the proposal were approved?

The proposed development is keeping with growth trends throughout Cherokee County and new housing is likely to add new students to the school population. The City of Canton has made recent upgrades to its wastewater system and water lines. Public utility service capacity is adequate to serve the Applicant's proposal. The applicant will work with the school system on any capacity concerns, but the proposed homes will cater to smaller families which often do not have many school age-children.

How is the proposal consistent with the Comprehensive Land Use Plan, particularly the Future Land Use Map?

The Applicant is requesting a concurrent annexation into the City of Canton. The Subject Property lies within the Suburban Development (SDA) Character Area of the City's Future Land Use Map. Townhomes will provide a transition from the R-20 subdivision to the north and the PD Mixed Use zoning category to the South and will provide a complementary use to the nearby developments. As outlined in the *Canton Roadmap for Success*, the Applicant's proposal will increase variety of housing through varied price-points, design and construction.

Are there existing or changing conditions which affect the development of the property and support the proposed request.

The City's 2022 Updated Housing Study has revealed the need for an increase in the number of housing units and specifically the need for additional for-sale housing options.

I look forward to working with you and the Community Development Department regarding this application. Should you or your staff have any questions, please let me know.

Sincerely,

SAMS, LARKIN & HUFF, LLP

PUBLIC SCHOOL POLICY STATEMENT

The Mayor and Council of the City of Canton hereby recognize that growth and development can, at times, have an effect on school capacity within the county and therefore recognize the need to share information on developments that have regional impact. In an effort to cooperate with the Cherokee County School Board and share information on residential rezoning requests, master plan applications, and land use modifications to the comprehensive land use plan, the Mayor and Council hereby encourage open dialogue and meeting between the applicant and the appropriate school board representative. Therefore, developers whose projects consist of 25 or more residential units shall contact the Cherokee County School Board and communicate with a school board representative to discuss their intent. The applicant should be prepared to address such communication if requested by the Mayor and Council at the meeting in which final action is to be taken. (Section 8-8-B-37) (Amended: 12/07/00)

Mr. Steve Green, Zoning Administrator
City of Canton

Canton, GA 30114

RE: Application of Traton Homes, LLC for Annexation, Rezoning, Master Plan,
Conditional Use Permit and Variances for properties located in Land Lot 203 of
the 15th District; Cherokee County, Ga.

LETTER OF INTENT

Dear Steve:

Traton Homes, LLC proposes to build a neighborhood with 59 single-family homes and 16 townhomes on approximately 14.33 acres and annexing the Subject Property into the City of Canton. The Subject Property is an assemblage of multiple parcels as depicted on the site plan and survey filed with this application. The subject property consists of 2 single-family home with accessory structures. The westernmost portion of the subject property consists of a power easement. Traton Homes an experienced local homebuilder known for building quality neighborhoods in Florida and metro Atlanta including projects currently under construction in Cherokee County.

The totality of the Subject Property is situated in unincorporated Cherokee County and is zoned AG. The property to the north and west of the subject property is an established subdivision known as Mills Ridge consisting of R-20 (county) zoning, which was constructed in the 1980's. East of the Subject Property is are a single-family home and a mobile home. South of the Subject Property is the Prominence Point subdivision, which is in the City of Canton. Under Cherokee County's Comprehensive Plan, the Subject Property is in the Suburban Living category.

The Applicant's proposal includes the construction of 75 single-family for-sale homes, 16 of those homes will be attached. All internal streets will be private. A concurrent variance is being filed to eliminate the gate requirement for private streets. The property is a transition from the intensity of uses and development on Prominence Point Parkway and the lower-density neighborhood to the west. The site plan includes a fifty (50) foot buffer adjacent to the existing neighborhood to the west.

July 5, 2024

Page 2

Access to the proposed development will be from Prominence Point Parkway, a four-lane median-divided roadway. The proposed development will have one driveway at a median break as depicted on the proposed site plan. A Traffic Impact Study is submitted with this application. The Applicant plans to conduct an updated study after the 2024-2025 school year begins and submit that revised study to supplement this application.

REVIEW CRITERIA

How will this proposal be compatible with the surrounding properties?

The Applicant's proposal of PD-Residential will provide a mix of housing in the Prominence Point corridor. The proposed density is far less than the multifamily Indigo Apartments to the north and similar to the density to the existing residential across Prominence Point Parkway.

How will this proposal affect the use and value of the surrounding properties?

The annexation, zoning, CUP, Master Plan and variance proposals will not adversely affect adjacent or nearby properties' existing use, usability, or value. This section of Prominence Point Parkway is a variety of older neighborhoods with similar or higher density.

Can the property be developed for a reasonable economic use as currently zoned? Please explain why or why not.

There is no reasonable use of the Subject Property under any other zoning classification than as requested by the applicant. It has little to no reasonable economic use if it cannot be developed as proposed by the Applicant. The Subject Property is currently zoned AG in Cherokee County which is not the best use for the site and is inconsistent with the county's land use plan and the development in the area.

What would be the increase to population and traffic if the proposal were approved?

The 75 proposed residential units would cause an increase in both population and trip generation. The increase in population and traffic is consistent with current growth trends throughout Cherokee County and the metro area and as outlined in the City's *Impact Fee Program Capital Improvements Element* (p.48). The Applicant is willing to work with the Department of Transportation with respect to the access and improvements from Prominence Point. The Applicant will also work with the City to ensure standards for right of ways are met in residential developments as outlined in the *Canton Roadmap for Success*. All internal streets will be private. The Applicant has engaged the services of A&R Engineering, Inc. to perform a traffic study, the results of which will be presented to the City upon its completion.

July 5, 2024
Page 3

What would be the impact to schools and utilities if the proposal were approved?

The proposed development is keeping with growth trends throughout Cherokee County and new housing is likely to add new students to the school population. The City of Canton has made recent upgrades to its wastewater system and water lines. Public utility service capacity is adequate to serve the Applicant's proposal. The applicant will work with the school system on any capacity concerns, but the proposed homes will cater to smaller families which often do not have many school age-children.

How is the proposal consistent with the Comprehensive Land Use Plan, particularly the Future Land Use Map?

The Applicant is requesting a concurrent annexation into the City of Canton. The Subject Property lies within the Suburban Development (SDA) Character Area of the City's Future Land Use Map. Townhomes will provide a transition from the R-20 subdivision to the north and the PD Mixed Use zoning category to the South and will provide a complementary use to the nearby developments. As outlined in the *Canton Roadmap for Success*, the Applicant's proposal will increase variety of housing through varied price-points, design and construction.

Are there existing or changing conditions which affect the development of the property and support the proposed request.

The City's 2022 Updated Housing Study has revealed the need for an increase in the number of housing units and specifically the need for additional for-sale housing options.

I look forward to working with you and the Community Development Department regarding this application. Should you or your staff have any questions, please let me know.

Sincerely,

SAMS, LARKIN & HUFF, LLP

Anne M. Roman
CLERK OF SUPERIOR COURT

THIS INDENTURE, made this 18th day of October, in the Year of Our Lord One Thousand Nine Hundred and Ninety-Three, between VEACHEL L. GRAY and CHARLOTTE GRAY of the State of Georgia and County of Cherokee, of the first part, and VEACHEL EDWARD GRAY of the State of Georgia and County of Cherokee, of the second part,

WITNESSETH: That the said parties of the first part, for and in consideration of the sum of ONE DOLLAR AND OTHER GOOD AND VALUABLE CONSIDERATIONS, in hand paid, the receipt whereof is acknowledged, have bargained, sold, and by these presents do remise, convey and forever, QUIT-CLAIM to the said party of the second part, his heirs and assigns,

All that tract or parcel of land lying and being in the 15th District, 2nd Section of Cherokee County, Georgia and being a portion of Land Lot 203 and being more particularly described as follows:

BEGINNING at an iron pin located on the North land lot line of Land Lot 203, said iron pin being located South 89° 30' 50" East a distance of 892.60 feet from an iron pin located on the original Northwest corner of Land Lot 203; thence from said beginning point South 23° 14' 50" East a distance of 295.16 feet to an iron pin located on the Northwest right-of-way of Keeter Road (Keeter Road having a 30 foot right-of-way); thence along the Northwest right-of-way of Keeter Road the following courses and distances: South 53° 16' 48" West 60.79 feet, South 42° 26' 47" West 98.78 feet, South 42° 34' 57" West 98.75 feet, South 50° 14' 55" West 45.06 feet, South 55° 55' 56" West 74.74 feet to a point; thence North 31° 51' 20" West a distance of 275.0 feet to a point; thence in a Northeasterly direction a distance of 400 feet, more or less, to an iron pin located on the North land lot line of Land Lot 203, the same being th POINT OF BEGINNING.

Grantor, Veachel L. Gray, conveyed the above-described property to Veachel Edward Gray by Warranty Deed dated April 25, 1985, as recorded in Deed Book 454, Page 323, Cherokee County Deed Records and in said conveyance, Grantor reserved unto himself and his wife, Charlotte Gray, a life estate in the above-described property with remainder over at their death to the Grantee, Veachel Edward Gray. The purpose of this Quitclaim Deed is to quitclaim the interest of the Grantors in said life estate and to convey to the Grantee, Veachel Edward Gray, complete fee simple title in the above-described property free and clear of any previously reserved life estate by the Grantors.

(GRAY-3/000038DF)

TO HAVE AND TO HOLD the said described premises to the said party of the second part, so that neither the said parties of the first party nor their heirs, nor any other person or persons claiming under them shall at any time, by any means or ways, have, claim or demand any right or title to the aforesaid described premises or appurtenances, or any rights thereof.

IN WITNESS WHEREOF, the said parties of the first part have hereunto set their hands and seals, the day and year above written.

PUBLIC SCHOOL POLICY STATEMENT

The Mayor and Council of the City of Canton hereby recognize that growth and development can, at times, have an effect on school capacity within the county and therefore recognize the need to share information on developments that have regional impact. In an effort to cooperate with the Cherokee County School Board and share information on residential rezoning requests, master plan applications, and land use modifications to the comprehensive land use plan, the Mayor and Council hereby encourage open dialogue and meeting between the applicant and the appropriate school board representative. Therefore, developers whose projects consist of 25 or more residential units shall contact the Cherokee County School Board and communicate with a school board representative to discuss their intent. The applicant should be prepared to address such communication if requested by the Mayor and Council at the meeting in which final action is to be taken. (Section 8-8-B-37) (Amended: 12/07/00)

RE: Application of Traton Homes, LLC for Annexation, Rezoning, Master Plan,
Conditional Use Permit and Variances for properties located in Land Lot 203 of
the 15th District; Cherokee County, Ga.

LETTER OF INTENT

Dear Steve:

Traton Homes, LLC proposes to build a neighborhood with 59 single-family homes and 16 townhomes on approximately 14.33 acres and annexing the Subject Property into the City of Canton. The Subject Property is an assemblage of multiple parcels as depicted on the site plan and survey filed with this application. The subject property consists of 2 single-family home with accessory structures. The westernmost portion of the subject property consists of a power easement. Traton Homes an experienced local homebuilder known for building quality neighborhoods in Florida and metro Atlanta including projects currently under construction in Cherokee County.

The totality of the Subject Property is situated in unincorporated Cherokee County and is zoned AG. The property to the north and west of the subject property is an established subdivision known as Mills Ridge consisting of R-20 (county) zoning, which was constructed in the 1980's. East of the Subject Property is are a single-family home and a mobile home. South of the Subject Property is the Prominence Point subdivision, which is in the City of Canton. Under Cherokee County's Comprehensive Plan, the Subject Property is in the Suburban Living category.

The Applicant's proposal includes the construction of 75 single-family for-sale homes, 16 of those homes will be attached. All internal streets will be private. A concurrent variance is being filed to eliminate the gate requirement for private streets. The property is a transition from the intensity of uses and development on Prominence Point Parkway and the lower-density neighborhood to the west. The site plan includes a fifty (50) foot buffer adjacent to the existing neighborhood to the west.

July 5, 2024

Page 2

Access to the proposed development will be from Prominence Point Parkway, a four-lane median-divided roadway. The proposed development will have one driveway at a median break as depicted on the proposed site plan. A Traffic Impact Study is submitted with this application. The Applicant plans to conduct an updated study after the 2024-2025 school year begins and submit that revised study to supplement this application.

REVIEW CRITERIA

How will this proposal be compatible with the surrounding properties?

The Applicant's proposal of PD-Residential will provide a mix of housing in the Prominence Point corridor. The proposed density is far less than the multifamily Indigo Apartments to the north and similar to the density to the existing residential across Prominence Point Parkway.

How will this proposal affect the use and value of the surrounding properties?

The annexation, zoning, CUP, Master Plan and variance proposals will not adversely affect adjacent or nearby properties' existing use, usability, or value. This section of Prominence Point Parkway is a variety of older neighborhoods with similar or higher density.

Can the property be developed for a reasonable economic use as currently zoned? Please explain why or why not.

There is no reasonable use of the Subject Property under any other zoning classification than as requested by the applicant. It has little to no reasonable economic use if it cannot be developed as proposed by the Applicant. The Subject Property is currently zoned AG in Cherokee County which is not the best use for the site and is inconsistent with the county's land use plan and the development in the area.

What would be the increase to population and traffic if the proposal were approved?

The 75 proposed residential units would cause an increase in both population and trip generation. The increase in population and traffic is consistent with current growth trends throughout Cherokee County and the metro area and as outlined in the City's *Impact Fee Program Capital Improvements Element* (p.48). The Applicant is willing to work with the Department of Transportation with respect to the access and improvements from Prominence Point. The Applicant will also work with the City to ensure standards for right of ways are met in residential developments as outlined in the *Canton Roadmap for Success*. All internal streets will be private. The Applicant has engaged the services of A&R Engineering, Inc. to perform a traffic study, the results of which will be presented to the City upon its completion.

July 5, 2024
Page 3

What would be the impact to schools and utilities if the proposal were approved?

The proposed development is keeping with growth trends throughout Cherokee County and new housing is likely to add new students to the school population. The City of Canton has made recent upgrades to its wastewater system and water lines. Public utility service capacity is adequate to serve the Applicant's proposal. The applicant will work with the school system on any capacity concerns, but the proposed homes will cater to smaller families which often do not have many school age-children.

How is the proposal consistent with the Comprehensive Land Use Plan, particularly the Future Land Use Map?

The Applicant is requesting a concurrent annexation into the City of Canton. The Subject Property lies within the Suburban Development (SDA) Character Area of the City's Future Land Use Map. Townhomes will provide a transition from the R-20 subdivision to the north and the PD Mixed Use zoning category to the South and will provide a complementary use to the nearby developments. As outlined in the *Canton Roadmap for Success*, the Applicant's proposal will increase variety of housing through varied price-points, design and construction.

Are there existing or changing conditions which affect the development of the property and support the proposed request.

The City's 2022 Updated Housing Study has revealed the need for an increase in the number of housing units and specifically the need for additional for-sale housing options.

I look forward to working with you and the Community Development Department regarding this application. Should you or your staff have any questions, please let me know.

Sincerely,

SAMS, LARKIN & HUFF, LLP

Mr. Steve Green, Zoning Administrator
City of Canton

RE: Application of Traton Homes, LLC for Annexation, Rezoning, Master Plan,
Conditional Use Permit and Variances for properties located in Land Lot 203 of
the 15th District; Cherokee County, Ga.

LETTER OF INTENT

Dear Steve:

Traton Homes, LLC proposes to build a neighborhood with 59 single-family homes and 16 townhomes on approximately 14.33 acres and annexing the Subject Property into the City of Canton. The Subject Property is an assemblage of multiple parcels as depicted on the site plan and survey filed with this application. The subject property consists of 2 single-family home with accessory structures. The westernmost portion of the subject property consists of a power easement. Traton Homes an experienced local homebuilder known for building quality neighborhoods in Florida and metro Atlanta including projects currently under construction in Cherokee County.

The totality of the Subject Property is situated in unincorporated Cherokee County and is zoned AG. The property to the north and west of the subject property is an established subdivision known as Mills Ridge consisting of R-20 (county) zoning, which was constructed in the 1980's. East of the Subject Property is are a single-family home and a mobile home. South of the Subject Property is the Prominence Point subdivision, which is in the City of Canton. Under Cherokee County's Comprehensive Plan, the Subject Property is in the Suburban Living category.

The Applicant's proposal includes the construction of 75 single-family for-sale homes, 16 of those homes will be attached. All internal streets will be private. A concurrent variance is being filed to eliminate the gate requirement for private streets. The property is a transition from the intensity of uses and development on Prominence Point Parkway and the lower-density neighborhood to the west. The site plan includes a fifty (50) foot buffer adjacent to the existing neighborhood to the west.

July 5, 2024

Page 2

Access to the proposed development will be from Prominence Point Parkway, a four-lane median-divided roadway. The proposed development will have one driveway at a median break as depicted on the proposed site plan. A Traffic Impact Study is submitted with this application. The Applicant plans to conduct an updated study after the 2024-2025 school year begins and submit that revised study to supplement this application.

REVIEW CRITERIA

How will this proposal be compatible with the surrounding properties?

The Applicant's proposal of PD-Residential will provide a mix of housing in the Prominence Point corridor. The proposed density is far less than the multifamily Indigo Apartments to the north and similar to the density to the existing residential across Prominence Point Parkway.

How will this proposal affect the use and value of the surrounding properties?

The annexation, zoning, CUP, Master Plan and variance proposals will not adversely affect adjacent or nearby properties' existing use, usability, or value. This section of Prominence Point Parkway is a variety of older neighborhoods with similar or higher density.

Can the property be developed for a reasonable economic use as currently zoned? Please explain why or why not.

There is no reasonable use of the Subject Property under any other zoning classification than as requested by the applicant. It has little to no reasonable economic use if it cannot be developed as proposed by the Applicant. The Subject Property is currently zoned AG in Cherokee County which is not the best use for the site and is inconsistent with the county's land use plan and the development in the area.

What would be the increase to population and traffic if the proposal were approved?

The 75 proposed residential units would cause an increase in both population and trip generation. The increase in population and traffic is consistent with current growth trends throughout Cherokee County and the metro area and as outlined in the City's *Impact Fee Program Capital Improvements Element* (p.48). The Applicant is willing to work with the Department of Transportation with respect to the access and improvements from Prominence Point. The Applicant will also work with the City to ensure standards for right of ways are met in residential developments as outlined in the *Canton Roadmap for Success*. All internal streets will be private. The Applicant has engaged the services of A&R Engineering, Inc. to perform a traffic study, the results of which will be presented to the City upon its completion.

July 5, 2024

Page 3

What would be the impact to schools and utilities if the proposal were approved?

The proposed development is keeping with growth trends throughout Cherokee County and new housing is likely to add new students to the school population. The City of Canton has made recent upgrades to its wastewater system and water lines. Public utility service capacity is adequate to serve the Applicant's proposal. The applicant will work with the school system on any capacity concerns, but the proposed homes will cater to smaller families which often do not have many school age-children.

How is the proposal consistent with the Comprehensive Land Use Plan, particularly the Future Land Use Map?

The Applicant is requesting a concurrent annexation into the City of Canton. The Subject Property lies within the Suburban Development (SDA) Character Area of the City's Future Land Use Map. Townhomes will provide a transition from the R-20 subdivision to the north and the PD Mixed Use zoning category to the South and will provide a complementary use to the nearby developments. As outlined in the *Canton Roadmap for Success*, the Applicant's proposal will increase variety of housing through varied price-points, design and construction.

Are there existing or changing conditions which affect the development of the property and support the proposed request.

The City's 2022 Updated Housing Study has revealed the need for an increase in the number of housing units and specifically the need for additional for-sale housing options.

I look forward to working with you and the Community Development Department regarding this application. Should you or your staff have any questions, please let me know.

Sincerely,

SAMS, LARKIN & HUFF, LLP

Roman CLERK OF SUPERIOR COURT
WITNESSETH: That the said parties of the first part, for and in consideration of the sum of ONE DOLLAR AND OTHER GOOD AND VALUABLE CONSIDERATIONS, in hand paid, the receipt whereof is acknowledged, have bargained, sold, and by these presents do remise, convey and forever, QUIT-CLAIM to the said party of the second party, his heirs and assigns,		
All that tract or parcel of land lying and being in the 15th District, 2nd Section of Cherokee County, Georgia and being a portion of Land Lot 203 and being more particularly described as follows:		
BEGINNING at an iron pin located on the North land lot line of Land Lot 203, said iron pin being located South 89° 30' 50" East a distance of 892.60 feet from an iron pin located on the original Northwest corner of Land Lot 203; thence from said beginning point South 23° 14' 50" East a distance of 295.16 feet to an iron pin located on the Northwest right-of-way of Keeter Road (Keeter Road having a 30 foot right-of-way); thence along the Northwest right-of-way of Keeter Road the following courses and distances: South 53° 16' 48" West 60.79 feet, South 42° 26' 47" West 98.78 feet, South 42° 34' 57" West 98.75 feet, South 50° 14' 55" West 45.06 feet, South 56° 55' 56" West 74.74 feet to a point; thence North 31° 51' 20" West a distance of 275.0 feet to a point; thence in a Northeasterly direction a distance of 400 feet, more or less, to an iron pin located on the North land lot line of Land Lot 203, the same being th POINT OF BEGINNING.		
Grantor, Veachel L. Gray, conveyed the above-described property to Veachel Edward Gray by Warranty Deed dated April 25, 1985, as recorded in Deed Book 454, Page 323, Cherokee County Deed Records and in said conveyance, Grantor reserved unto himself and his wife, Charlotte Gray, a life estate in the above-described property with remainder over at their death to the Grantee, Veachel Edward Gray. The purpose of this Quitclaim Deed is to quitclaim the interest of the Grantors in said life estate and to convey to the Grantee, Veachel Edward Gray, complete fee simple title in the above-described property free and clear of any previously reserved life estate by the Grantors.

1.0 INTRODUCTION

The purpose of this study is to determine the traffic impact from the proposed residential development that will be located at 620 Prominence Point Parkway in the City of Canton, Georgia. The traffic analysis evaluates the current operations and future conditions with the traffic generated by the development. The residential development will consist of 59 detached single-family houses along with 16 townhomes and proposes a full access driveway on Prominence Point Parkway.

The AM and PM peak hours have been analyzed in this study. In addition to the site access point, this study includes the evaluation of traffic operations at the intersections of:

- Marietta Highway at Prominence Point Parkway / Kroger Driveway
- Prominence Point Parkway at Lantana Trail
- Prominence Point Parkway at Nacoochee Way
- Keeter Road at Holly Street

Recommendations to improve traffic operations have been identified as appropriate and are discussed in detail in the following sections of the report. The location of the development and the surrounding roadway network are shown in Figure 1.

2.0 EXISTING FACILITIES / CONDITIONS

2.1 Roadway Facilities

The following is a brief description of each of the roadway facilities located in proximity to the site:

2.1.1 Marietta Highway

Marietta Highway is a north-south four-lane roadway with a two-way left-turn lane and a posted speed limit of 45 mph in the vicinity of the site. Georgia Department of Transportation (GDOT) traffic counts (Station ID 057-0018) indicate that the daily traffic volume on Marietta Highway in 2022 was 18,000 vehicles per day, north of Ridge Road. GDOT classifies Marietta Highway as an urban minor arterial roadway.

2.1.2 Prominence Point Parkway

Prominence Point Parkway is an east-west, two-lane, median-divided roadway with a posted speed limit of 30 mph in the vicinity of the site. To the east of Lantana Trail, Prominence Point Parkway is a four-lane median-divided roadway.

2.1.3 Keeter Road

Keeter Road is a two-lane undivided roadway with a posted speed limit of 25 mph in the vicinity of the site. In between Village Drive and Ilex Drive, Keeter Road has a posted speed limit of 30 mph.

2.1.4 Holly Street

Holly Street is an east-west, two lane, undivided roadway with a posted speed limit of 35 mph in the vicinity of the site. Georgia Department of Transportation (GDOT) traffic counts (Station ID 057-0303) indicate that the daily traffic volume on Holly Street in 2022 was 5,800 vehicles per day, west of Keeter Road. GDOT classifies Holly Street as an urban major collector roadway.

2.1.5 Lantana Trail

Lantana Trail is a north-south two-lane residential roadway with a posted speed limit of 25 mph.

2.1.6 Nacoochee Way

Nacoochee Way is a north-south two-lane residential roadway with a posted speed limit of 25 mph.

3.0 STUDY METHODOLOGY

In this study, the methodology used for evaluating traffic operations at each of the subject intersections is based on the criteria set forth in the Transportation Research Board Highway Capacity Manual, 6th edition (HCM 6). Synchro software, which utilizes the HCM methodology, was used for the analysis. The following is a description of the methodology employed for the analysis of unsignalized and signalized intersections.

3.1 Unsignalized Intersections

For unsignalized intersections controlled by a stop sign on minor streets, the level of service (LOS) for motor vehicles with controlled movements is determined by the computed control delay according to the thresholds stated in Table 1 below. LOS is determined for each minor street movement (or shared movement), as well as major street left turns. LOS is not defined for the intersection as a whole or for major street approaches. The LOS of any controlled movement which experiences a volume-to-capacity ratio greater than 1 is designated as "F" regardless of the control delay.

Control delay for unsignalized intersections includes initial deceleration delay, queue move-up time, stopped delay, and final acceleration delay. Several factors affect the control delay for unsignalized intersections, such as the availability and distribution of gaps in the conflicting traffic stream, critical gaps, and follow-up time for a vehicle in the queue.

Level of service is assigned a letter designation from "A" through "F". Level of service "A" indicates excellent operations with little delay to motorists, while level of service "F" exists when there are insufficient gaps of acceptable size to allow vehicles on the side street to cross the main road without experiencing long delays.

TABLE 1 — LEVEL-OF-SERVICE CRITERIA FOR UNSIGNALIZED INTERSECTIONS		
Control Delay (sec/vehicle)	LOS by Volume-to-Capacity Ratio*	
	$v/c \leq 1.0$	$v/c > 1.0$
≤ 10	A	F
> 10 and ≤ 15	B	F
> 15 and ≤ 25	C	F
> 25 and ≤ 35	D	F
> 35 and ≤ 50	E	F
> 50	F	F

*The LOS criteria apply to each lane on a given approach and to each approach on the minor street. LOS is not calculated for major-street approaches or for the intersection.

Source: Highway Capacity Manual, 6th edition, Exhibit 20-2 LOS Criteria: Motorized Vehicle Mode

3.2 Signalized Intersections

According to HCM procedures, LOS can be calculated for the entire intersection, each intersection approach, and each lane group. HCM uses control delay alone to characterize LOS for the entire intersection or an approach. Control delay per vehicle is composed of initial deceleration delay, queue move-up time, stopped delay, and final acceleration delay. Both control delay and volume-to-capacity ratio are used to characterize LOS for a lane group. A volume-to-capacity ratio of greater than 1.0 for a lane group indicates failure from capacity perspective. Therefore, such a lane group is assigned LOS F regardless of the amount of control delay.

Table 2 below summarizes the LOS criteria from HCM for motorized vehicles at signalized intersection.

TABLE 2 — LEVEL-OF-SERVICE CRITERIA FOR SIGNALIZED INTERSECTIONS		
Control Delay (sec/vehicle) *	LOS for Lane Group by Volume-to-Capacity Ratio*	
	v/c ≤ 1.0	v/c > 1.0
≤ 10	A	F
> 10 and ≤ 20	B	F
> 20 and ≤ 35	C	F
> 35 and ≤ 55	D	F
> 55 and ≤ 80	E	F
> 80	F	F

*For approach-based and intersection wide assessments, LOS is defined solely by control delay

Source: Highway Capacity Manual, 6th edition, Exhibit 19-8 *LOS Criteria: Motorized Vehicle Mode*

LOS A is typically assigned when the volume-to-capacity (v/c) ratio is low and either progression is exceptionally favorable, or the cycle length is very short. LOS B is typically assigned when the v/c ratio is low and either progression is highly favorable, or the cycle length is short. However, more vehicles are stopped than with LOS A. LOS C is typically assigned when progression is favorable, or the cycle length is moderate. Individual *cycle failures* (one or more queued vehicles are not able to depart because of insufficient capacity during the cycle) may begin to appear at this level. Many vehicles still pass through the intersection without stopping, but the number of vehicles stopping is significant. LOS D is typically assigned when the v/c ratio is high and either progression is ineffective, or the cycle length is long. There are many vehicle-stops and individual cycle failures are noticeable. LOS E is typically assigned when the v/c ratio is high, progression is very poor, the cycle length is long, and individual cycle failures are frequent. LOS F is typically assigned when the v/c ratio is very high, progression is very poor, the cycle length is long, and most cycles fail to clear the queue.

4.0 EXISTING 2024 TRAFFIC ANALYSIS

4.1 Existing Traffic Volumes

Existing traffic counts were obtained at the following study intersections:

- Marietta Highway at Prominence Point Parkway / Kroger Driveway
- Prominence Point Parkway at Lantana Trail
- Prominence Point Parkway at Nacoochee Way
- Keeter Road at Holly Street

Turning movement counts were collected on Wednesday, August 31, 2022. All turning movement counts were recorded during the morning and afternoon peak hours between 7:00 AM to 9:00 AM and 4:00 PM to 6:00 PM, respectively. The four consecutive 15-minute interval volumes that summed to produce the highest volume at the intersections were then determined. These volumes make up the peak hour traffic volumes for the intersections counted and are shown in Figure 2. Since the traffic volumes were collected in 2022, they were increased by a linear annual growth rate of 1% (as explained in Section 6.1.1 on Page 15) for 2 years to estimate the current 2024 turning movement counts, which are shown in Figure 3. The existing traffic control and lane geometry for the intersections are shown in Figure 4.

4.2 Existing Traffic Operations

Existing 2024 traffic operations were analyzed at the study intersections in accordance with the HCM methodology. The results of the analyses are shown in Table 3.

TABLE 3 — EXISTING INTERSECTION OPERATIONS				
Intersection		Traffic Control	LOS (Delay)	
			AM Peak Hour	PM Peak Hour
1	<u>Marietta Highway @ Prominence Point Parkway / Kroger Driveway</u> -Eastbound Approach -Westbound Approach -Northbound Approach -Southbound Approach	Signalized	<u>C (23.1)</u> D (46.4) E (56.9) C (24.7) B (14.5)	<u>C (34.1)</u> D (44.2) D (54.6) C (32.5) C (28.0)
2	<u>Prominence Point Parkway @ Lantana Trail</u> -Westbound Left -Northbound Approach	Stop Controlled on NB Approach	A (8.0) B (11.1)	A (7.9) B (10.9)
3	<u>Prominence Point Parkway @ Nacoochee Way</u> -Westbound Left -Northbound Approach	Stop Controlled on NB Approach	A (7.8) B (10.7)	A (7.9) B (11.3)
4	<u>Keeter Road @ Holly Street</u> -Eastbound Left -Southbound Approach	Stop Controlled on SB Approach	A (7.9) B (14.5)	A (8.2) C (20.1)

The results of the existing traffic operations analysis indicate that the signalized study intersection of Marietta Highway at Prominence Point Parkway is operating at an overall level of service "C" in both the AM and PM peak hours, while the stop-controlled approaches at the unsignalized study intersections are also operating at a level of service "C" or better with peak hour traffic.

5.0 PROPOSED DEVELOPMENT

The residential development will consist of 59 detached single-family houses along with 16 townhomes and proposes a full access driveway on Prominence Point Parkway.

A site plan is shown in Figure 5.

5.1 Trip Generation

Trip generation estimates for the project were based on the rates and equations published in the 11th edition of the Institute of Transportation Engineers (ITE) Trip Generation report. This reference contains traffic volume count data collected at similar facilities nationwide. The trip generation was based on the following ITE land uses *210 – Single-Family Detached Housing* and *215 – Single-Family Attached Housing*. The calculated total trip generation for the proposed development is shown in Table 4.

TABLE 4 – TRIP GENERATION

5.2 Trip Distribution

The trip distribution describes how traffic arrives and departs from the site. An overall trip distribution was developed for the site based on a review of the existing travel patterns in the area and the locations of major roadways and highways that will serve the development. The site-generated peak hour traffic volumes, shown in Table 4, were assigned to the study area intersections based on this distribution. The outer-leg distribution and AM and PM peak hour new traffic generated by the site are shown in Figure 6.

6.0 FUTURE 2026 TRAFFIC ANALYSIS

The future 2024 traffic operations are analyzed for the “Build” and “No-Build” conditions.

6.1 Future “No-Build” Conditions

The “No-Build” (or background) conditions provide an assessment of how traffic will operate in the study horizon year without the study site being developed as proposed, with projected increases in through traffic volumes due to normal annual growth. The future “No-Build” volumes consist of the existing traffic volumes (Figure 3) plus increases for annual growth of through traffic.

6.1.1 Annual Traffic Growth

To evaluate future traffic operations in this area, a projection of normal traffic growth was applied to the existing volumes. The Georgia Department of Transportation recorded average daily traffic volumes at several locations in the vicinity of the site. Reviewing the growth over the last five years (2017-2019 & 2021-2022) revealed a traffic volume increase of approximately 1% in the area. This growth factor was applied to the existing traffic volumes between collector and arterial roadways to estimate the future year traffic volumes prior to the addition of site-generated traffic. The resulting future “No-Build” volumes on the roadway are shown in Figure 7.

6.2 Future “Build” Conditions

The “Build” or development conditions include the estimated background traffic from the “No-Build” conditions plus the added traffic from the proposed development. To evaluate future traffic operations in this area, the additional traffic volumes from the site (Figure 6) were added to base traffic volumes (Figure 7) to calculate the future traffic volumes after the construction of the development. These total future “Build” traffic volumes are shown in Figure 8.

6.3 Auxiliary Lane Analysis

Included below are analyses for turn lanes at the proposed site driveway per GDOT standards. According to the projected ITE site trip generation, the 24-hour two-way volume for traffic entering and exiting the site is 692 vehicles. The ADT on Prominence Point Parkway was assumed to be less than 6,000 vehicles per day based on GDOT volumes on the surrounding roadway network.

6.3.1 Left Turn Lane Analysis

As Prominence Point Parkway already has a left turn lane built at the location of the study intersection which will be available for traffic entering the development, no left turn analysis was necessary for this study.

6.3.2 Deceleration Turn Lane Analysis

For two-lane roadways with an AADT under 6,000 vehicles and a posted speed limit of 30 mph, the daily site-generated traffic right turn movements threshold to warrant a deceleration lane is 200 right-turning vehicles a day. The projected right turn volumes per day for each driveway is included in Table 5.

TABLE 5 – GDOT REQUIREMENTS FOR DECELERATION LANES					
Intersection	Right Turn Traffic (% total entering)	Right Turn Volume (vehicles/day)	Roadway Speed / # Lanes / ADT	GDOT Threshold (vehicles/day)	Warrants Met?
Prominence Point Parkway @ Site Driveway	77%	266 $(\text{Total Trips}) \div 2 \times 0.77 =$ $(692) \div 2 \times 0.77 = 266$	30 mph / 2-Lane / < 6,000	200	Yes

A right turn lane is warranted at the site driveway.

6.4 Future Traffic Operations

The future “No-Build” and “Build” traffic operations were analysed using the volumes in Figures 7 and 8, respectively. The results of the future traffic operations analysis are shown below in Table 6. Recommendations on traffic control and lane geometry are shown in Figure 9.

TABLE 6 — FUTURE INTERSECTION OPERATIONS					
Intersection		Future Condition: LOS (Delay)			
		NO-BUILD		BUILD	
		AM Peak	PM Peak	AM Peak	PM Peak
1	<u>Marietta Highway @ Prominence Point Parkway / Kroger Driveway</u>	<u>C (23.3)</u>	<u>C (34.5)</u>	<u>C (24.1)</u>	<u>D (35.8)</u>

	-Westbound Approach	E (56.8)	D (54.5)	E (56.8)	D (54.5)
	-Northbound Approach	C (25.1)	C (32.8)	C (26.0)	C (34.8)
	-Southbound Approach	B (14.8)	C (28.5)	B (15.4)	C (29.5)

	-Northbound Approach	B (10.7)	B (11.4)	B (10.8)	B (11.5)
4	<u>Keeter Road @ Holly Street</u>				
	-Eastbound Left	A (7.9)	A (8.3)	A (7.9)	A (8.3)
	-Southbound Approach	B (14.8)	C (21.0)	B (15.2)	C (21.9)
5	<u>Prominence Point Parkway @ Site Driveway</u>				
	-Eastbound Left	-	-	A (7.6)	A (8.3)
	-Southbound Approach			B (11.8)	B (14.2)

The results of the future “No-Build” and “Build” conditions traffic analysis indicate that the signalized study intersection of Marietta Highway at Prominence Point Parkway will operate at an overall level of service “D” or better in the AM and PM peak hours, while the stop-controlled approaches at the unsignalized study intersections will continue to operate at a level of service “C” or better with peak hour traffic.

7.0 CONCLUSIONS AND RECOMMENDATIONS

Traffic impacts were evaluated for the proposed residential development that will be located at 620 Prominence Point Parkway in the City of Canton, Georgia. The residential development will consist of 59 detached single-family houses along with 16 townhomes and proposes a full access driveway on Prominence Point Parkway.

Existing and future operations after completion of the project were analysed at the intersections of:

- Marietta Highway at Prominence Point Parkway / Kroger Driveway
- Prominence Point Parkway at Lantana Trail
- Prominence Point Parkway at Nacoochee Way
- Keeter Road at Holly Street
- Prominence Point Parkway at Site Driveway

The analysis included the evaluation of future operations for “No-Build” and “Build” conditions, both of which account for increases due to the annual growth of through traffic. The results of the future “No-Build” and “Build” conditions traffic analysis indicate that the signalized study intersection of Marietta Highway at Prominence Point Parkway will operate at an overall level of service “D” or better in the AM and PM peak hours, while the stop-controlled approaches at the unsignalized study intersections will continue to operate at a level of service “C” or better with peak hour traffic. Based on the analysis, the proposed development will have minimal impact on traffic operations in the study network.

7.1 Recommendations for Site Access Configuration

The following access configuration is recommended for the proposed site driveway intersection:

Site Driveway: Full Access Driveway on Prominence Point Parkway

- One entering lane and one exiting lane
- Stop-sign controlled on the driveway approach with Prominence Point Parkway remaining free flow
- A right turn lane for entering traffic
- Provide/confirm adequate sight distance per AASHTO standards
