Site Description: The property contains one structure which was most recently used as the office for D & S Surveying. There is a gravel parking area out front with a mixture trees to the rear. Tanyard Creek makes up part of the southern property line.

Site History: The property was originally constructed as a single family home. The last occupant was the surveying company, D & S Surveying. The structure has been vacant for the last few years.

CRITERIA TO BE APPLIED – LAND USE PETITION (REZONING)

1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties; The majority of the neighborhood consist of residences. 23 ½ Hour Locksmith is to the north at the intersection of John T. Petitt and East Main Street. There is a auto repair shop to the south at the intersection of John T. Petitt and West Marietta Street.
2. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; The proposed zoning/use of the property is inconsistent with the adjacent uses.
3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; The property has reasonable economic use as currently zoned.
4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools; The proposed use of the property could cause excessive or burdensome use of the streets if the restaurant is s success. Transportation facilities, schools or utilities would not be affected.
5. Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan and Future Development Map; The property lies within the Historic Area/Traditional and Stable Neighborhood Area. Compatible land uses for this area are medium density residential (4-6 du/a), Traditional Neighborhood Development, senior housing, parks/recreation/green space, and institutional. The proposed use is not consistent with the Comprehensive Plan.
6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal. The area has remained largely residential for the last several years. There is a proposal for a 143 residential development to the south of the subject property.

7. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources. **The proposed zoning/use of the property would not adversely affect any historic buildings, sites, districts or archaeological resources.**
8. Whether the aesthetic and architectural design of the site is compatible with the intent and requirements of the Comprehensive Plan, the Character Areas, and any Overlay Districts. **The property now lies within the Historic District. Any modifications or changes to the structure will require review and approval by the Historic Preservation Commission.**

CRITERIA TO BE APPLIED – CONDITIONAL USE PERMIT

- a. Whether the proposed use is consistent with the comprehensive plan and other adopted policies of the City;
- b. Whether the proposed use complies with the requirements of this zoning ordinance;
- c. Whether public services, public facilities and utilities are adequate to serve the proposed use;
- d. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of:
 1. Noise, smoke, order, dust or vibration generated by the proposed use;
 2. Hours or manner of operation of the proposed use; and
 3. Traffic volumes generated by the proposed use;
- e. Whether the proposed use would result in an over-concentration of the subject use type within the area of the proposed use;

- f. Whether the aesthetic and architectural design of the site is compatible with the intent and requirements of the comprehensive plan, the character areas, and all applicable zoning ordinance regulations; and**
- g. Whether the proposed use is compatible with adjacent properties and land uses, based on consideration of the size, scale and massing of proposed buildings and the overall site design.**

In accordance with the 2010 ADA Standards for Accessible Design, surfaces for accessible parking spaces, access aisles, and accessible routes must be firm, stable, and slip-resistant. Gravel does not meet these criteria, as it lacks the necessary surface integrity and presents an increased risk of instability and slippage, particularly for individuals utilizing wheelchairs, walkers, or other mobility aids. To ensure compliance, acceptable surface materials include—but are not limited to—concrete or asphalt, which provide the required firmness, stability, and slip resistance. Please let me know if you have any questions or require additional clarification regarding these regulatory requirements.

Conditions for Consideration

COMMUNITY DEVELOPMENT

This application seeks to rezone .692 acres from R-20 (single family residential) to CBD (Central Business District) for the purpose of operating a restaurant. The previous occupant of the parcel was D & S Surveying. The earliest business that we have on file dates back to 2009. The structure has been vacant for the last few years. With this submittal the applicant also seeks two variances, 1) To use the existing gravel area for parking and 2) to encroach into the stream buffer. The City Engineer has expressed support for the gravel parking area provided an asphalt/concrete apron is installed to help control gravel from getting on the street. The Fire Marshal has also noted the need for a concrete/asphalt area to meet the ADA requirements. When the structure was constructed the stream buffers were not as large as they are today and it MAY have been in compliance at that time. With the expansion of the required stream buffers and possible stream meandering the structure is now encroaching the current buffer requirement.

The requested zoning of CBD would be considered as "spot zoning". This practice is generally frowned upon.

The Comprehensive Plan does not support this request.

Conditions for Consideration

DEVELOPMENT SERVICES

It appears that the area they are wanting to gravel is already cleared. With that being said, my suggestion would be that we allow the gravel parking and in exchange ask that they put in a concrete or asphalt apron to mitigate gravel in the main road due to the additional traffic flow.

Review Criteria

(Applications Type A - J: ONLY)

How will this proposal be compatible with surrounding properties? There are other CBD on Dr. John T Pettit Street General Business District and General Commercial along with General commercial mix with residential.

How will this proposal affect the use and value of surrounding properties? Since there is already General commercial on the same street and surrounds, will generate more pedestrian activity in the city's historic downtown core.

Can the property be developed for a reasonable economic use as currently zoned? Please explain why or why not. No because currently is being zoned as Residential only. Under residential, it is not Permissible to have a restaurant, with CBD it is Permissible to have a restaurant.

What would be the increase to population and traffic if the proposal were approved? Slight more since there already, is GC and CBD around the same street that the property touches.

What would be the impact to schools and utilities if the proposal were approved? It would not impact the schools since there are other business there already expect property taxes would change and there would be higher taxes to be paid.

The water utility is already with the city of Canton so no impact on any utilities.

How is the proposal consistent with the Comprehensive Land Use Plan, particularly the Future Land Use Map?

Since the Future Land use map will provide more population traffic, need more restaurants for the population.

Are there existing or changing conditions which affect the development of the property and support the proposed request? Only with fix the inside of the building which provided a site plan. Also the outside lot will have concrete and parking lot lights. Another other change requests are manageable.

Provide a Letter of Intent, which provides the necessary information to support your application.

LETTER OF INTENT

JUAN VELASQUEZ LOARCA

Owner of 100 Cherokee Street

Case #

Dear Canton City Hall:

The property of 100 Cherokee Street is currently in R-20 zone. We are respectfully requesting to rezone of the property of 100 Cherokee Street from R-20 to CBD (General Business District). There are other CBD on Dr. John T Pettit Street and General Commercial along with General Commercial mix with residential. Since there is already General commercial on the same street and surrounding, it will generate more pedestrian activity in the city's historic downtown core. The owner would like to turn the property into a restaurant and since it is currently R-20 it is not permissible to have a restaurant, however with a CBD it's permissible. We will have a family restaurant which will open at decent hours of the day and closes in the evening to make sure we keep the peace around residents. Since there are other GC and CBD around the same street that the property touches it would blend in. We are also asking for a buffer variance of 34 feet of forgiveness. For the land use of 100 Cherokee Street, there is clear documentation that the land did take place continuously without any breaks lasting two years or more. Occupational Tax Certificates (OTC) or "business licenses" were the primary method which shows continuous operation of commercial land use at this location. We have included a future site plan for the inside of the building and outside of the parking lot.

We are willing to make any changes with the property to help with your decision making.

Therefore, I am respectfully seeking for my rezoning to be approved. To support this case, I have attached serval documents.

Respectfully,

FIORELLA SOTO
