Canton Board of Appeals Review Criteria

Article H, Section 8-8-H-195 empowers the Board of Appeals to authorize variances from provisions of the Zoning Code pursuant to a finding based in the criteria listed below. Please respond to the following.

(Applications Type K : ONLY)

Are there any extraordinary and exceptional conditions pertaining to the subject property because of its size, shape or topography? Yes

Would the application of the Zoning Code standards as they relate to the subject property create an unnecessary hardship? Yes

Has the condition from which relief or variance is sought been a result from action by the applicant? Yes

Are there conditions peculiar to the subject property? Due to the lot size there was not enough parking space due to heavy street traffic

Would relief, if granted, cause substantial detriment to the public good or impair the purpose and intent of the Zoning Code? Specifically, would the variance impair an adequate supply of light and air to adjacent property or unreasonably increase the congestion in public streets or increase the danger of fire or imperil the public safety or unreasonably diminish or impair established property values within the surrounding areas, or in any other respect impair the health, safety, comfort, morals or general welfare or the inhabitants or the City? NO

Provide a Letter of Intent, which provides the necessary information to support your application for Variance.

City of Canton Planning and Zoning Department
Canton, Georgia
12/19/2024

Subject: Letter of Intent for Variance Application

Dear Members of the Planning and Zoning Department,

My name is Carlos Velez, and I am the owner of the property located at 100 Hospital Drive, which I purchased at the beginning of this year. I am writing to formally request a variance for the property to address an unforeseen issue that arose during the development of the lot.

When I initially purchased this lot, I was drawn to its size and spacious appearance, which was exactly what I was looking for. However, as construction of the house progressed, I realized that the placement and size of the house left much less space for parking than I had anticipated. This created challenges regarding the accommodation of my vehicles on the property.

In an effort to ensure compliance with the city's regulations, I scheduled an appointment with one of the city engineers to discuss my plan to pour concrete at the front of the house to create additional parking space. During this meeting, I understood their response to mean that as long as water did not run off down the driveway, the plan would be acceptable. Based on this understanding, I moved forward with the project.

Unfortunately, after completing the work and during the final inspection process, I was informed that the driveway configuration I implemented was not permitted. This discrepancy appears to have stemmed from a miscommunication between myself and the city engineer. I sincerely regret any misunderstanding and assure you that my intention has always been to comply with the city's rules and regulations.

Due to the location of my house, which is positioned directly in front of a busy street, the limited parking space not only presents a practical challenge but also poses safety concerns. I am a grandfather with a large family; they all tend to regularly visit my wife and I which required us to have plenty of space for all of the vehicles as well as make space for an RV I am hoping to purchase.

The lack of sufficient parking forces vehicles to be maneuvered dangerously close to heavy traffic, creating risks for both my family and passing motorists. I am requesting this variance to allow the existing driveway modifications to remain in place so that my property can provide the necessary parking space while ensuring safety and functionality. I believe this solution addresses the unique challenges posed by the lot's layout and location, and I am committed to working with the city to resolve this matter in a way that aligns with community standards.

Additionally, I am willing to make further adjustments to address any concerns the city may have. For example, I am open to breaking up some of the concrete and incorporate a tree and greenery into the design if that is deemed necessary. This would enhance the aesthetic appeal of the property and contribute to environmental considerations.

Thank you for your time and consideration of my request. Please do not hesitate to contact me at 404-597-0526 or cvelez@comcast.net if you require additional information or would like to discuss this matter further.

Sincerely,

Carlos Velez
100 Hospital Dr.
